AMORE PER LE COSE FATTE BENE, DA SEMPRE

KNOW ABOUT US

IT Contemporanea nasce dalla visione della famiglia Cecconato, che tramanda da tre generazione la passione per l'artigianalità e la manualità della lavorazione di metallo e vetro con un'apertura verso idee innovative.. La loro capacità di coniugare l'arte del fatto a mano con un design moderno e ricercato rappresenta il cuore pulsante del successo di Contemporanea srl e del suo brand Sikrea. Grazie a un approccio che valorizza la cura dei dettagli e l'attenzione ai materiali, la famiglia Cecconato continua a innovare, mantenendo al contempo salda la propria eredità artigianale. Tutt'oggi tutte e tre le generazioni collaborano attivamente, unendo esperienza e nuove idee per portare avanti tale eredità di eccellenza. Contemporanea continua a evolversi, restando fedele ai suoi valori e reinterpretando la manualità artigiana in chiave moderna.

EN Contemporanea was born from the vision of the Cecconato family, which has passed down its passion for craftsmanship and the manual artistry of metal and glasswork for three generations, always embracing innovative ideas. Their ability to combine the art of handmade creations with a modern and sophisticated design is the driving force behind the success of Contemporanea srl and its brand, Sikrea. Through an approach that values attention to detail and the careful selection of materials, the Cecconato family continues to innovate while preserving its artisanal heritage. Today, all three generations actively collaborate, blending experience and fresh ideas to carry forward this legacy of excellence. Contemporanea keeps evolving, staying true to its values and reinterpreting traditional craftsmanship with a contemporary vision.

DE Contemporanea entsteht aus der Vision der Familie Cecconato, die seit drei Generationen die Leidenschaft für Handwerkskunst und die manuelle Verarbeitung von Metall und Glas weitergibt, stets offen für innovative Ideen. Ihre Fähigkeit, die Kunst des Handwerks mit modernem und anspruchsvollem Design zu vereinen, bildet das pulsierende Herz des Erfolgs von Contemporanea srl und ihrer Marke Sikrea. Dank eines Ansatzes, der die Liebe zum Detail und die Sorgfalt bei der Materialauswahl betont, treibt die Familie Cecconato weiterhin Innovationen voran, ohne ihre handwerkliche Tradition zu vernachlässigen. Noch heute arbeiten alle drei Generationen aktiv zusammen und verbinden Erfahrung mit neuen Ideen, um dieses Erbe der Exzellenz fortzuführen. Contemporanea entwickelt sich stetig weiter, bleibt dabei ihren Werten treu und interpretiert handwerkliches Können auf moderne Weise neu.

ES Contemporanea nace de la visión de la familia Cecconato, que desde hace tres generaciones transmite la pasión por la artesanía y la destreza en el trabajo del metal y el vidrio, con una apertura hacia ideas innovadoras. Su capacidad para combinar el arte de lo hecho a mano con un diseño moderno y sofisticado representa el corazón del éxito de Contemporanea srl y de su marca Sikrea. Gracias a un enfoque que valora el cuidado de los detalles y la atención a los materiales, la familia Cecconato sigue innovando, manteniendo al mismo tiempo firme su herencia artesanal. Hoy en día, las tres generaciones colaboran activamente, uniendo experiencia y nuevas ideas para continuar con esta herencia de excelencia. Contemporanea sigue evolucionando, permaneciendo fiel a sus valores y reinterpretando la artesanía en clave moderna.

FR Contemporanea est née de la vision de la famille Cecconato, qui transmet depuis trois générations la passion pour l'artisanat et le savoir-faire dans le travail du métal et du verre, tout en s'ouvrant à des idées innovantes. Leur capacité à allier l'art du fait main à un design moderne et raffiné constitue le cœur battant du succès de Contemporanea srl et de sa marque Sikrea. Grâce à une approche qui valorise le souci du détail et l'attention portée aux matériaux, la famille Cecconato continue d'innover, tout en préservant son précieux héritage artisanal. Aujourd'hui encore, les trois générations collaborent activement, conjuguant expérience et nouvelles idées pour perpétuer cet héritage d'excellence. Contemporanea continue d'évoluer, restant fidèle à ses valeurs et réinterprétant le savoir-faire artisanal dans une vision contemporaine.

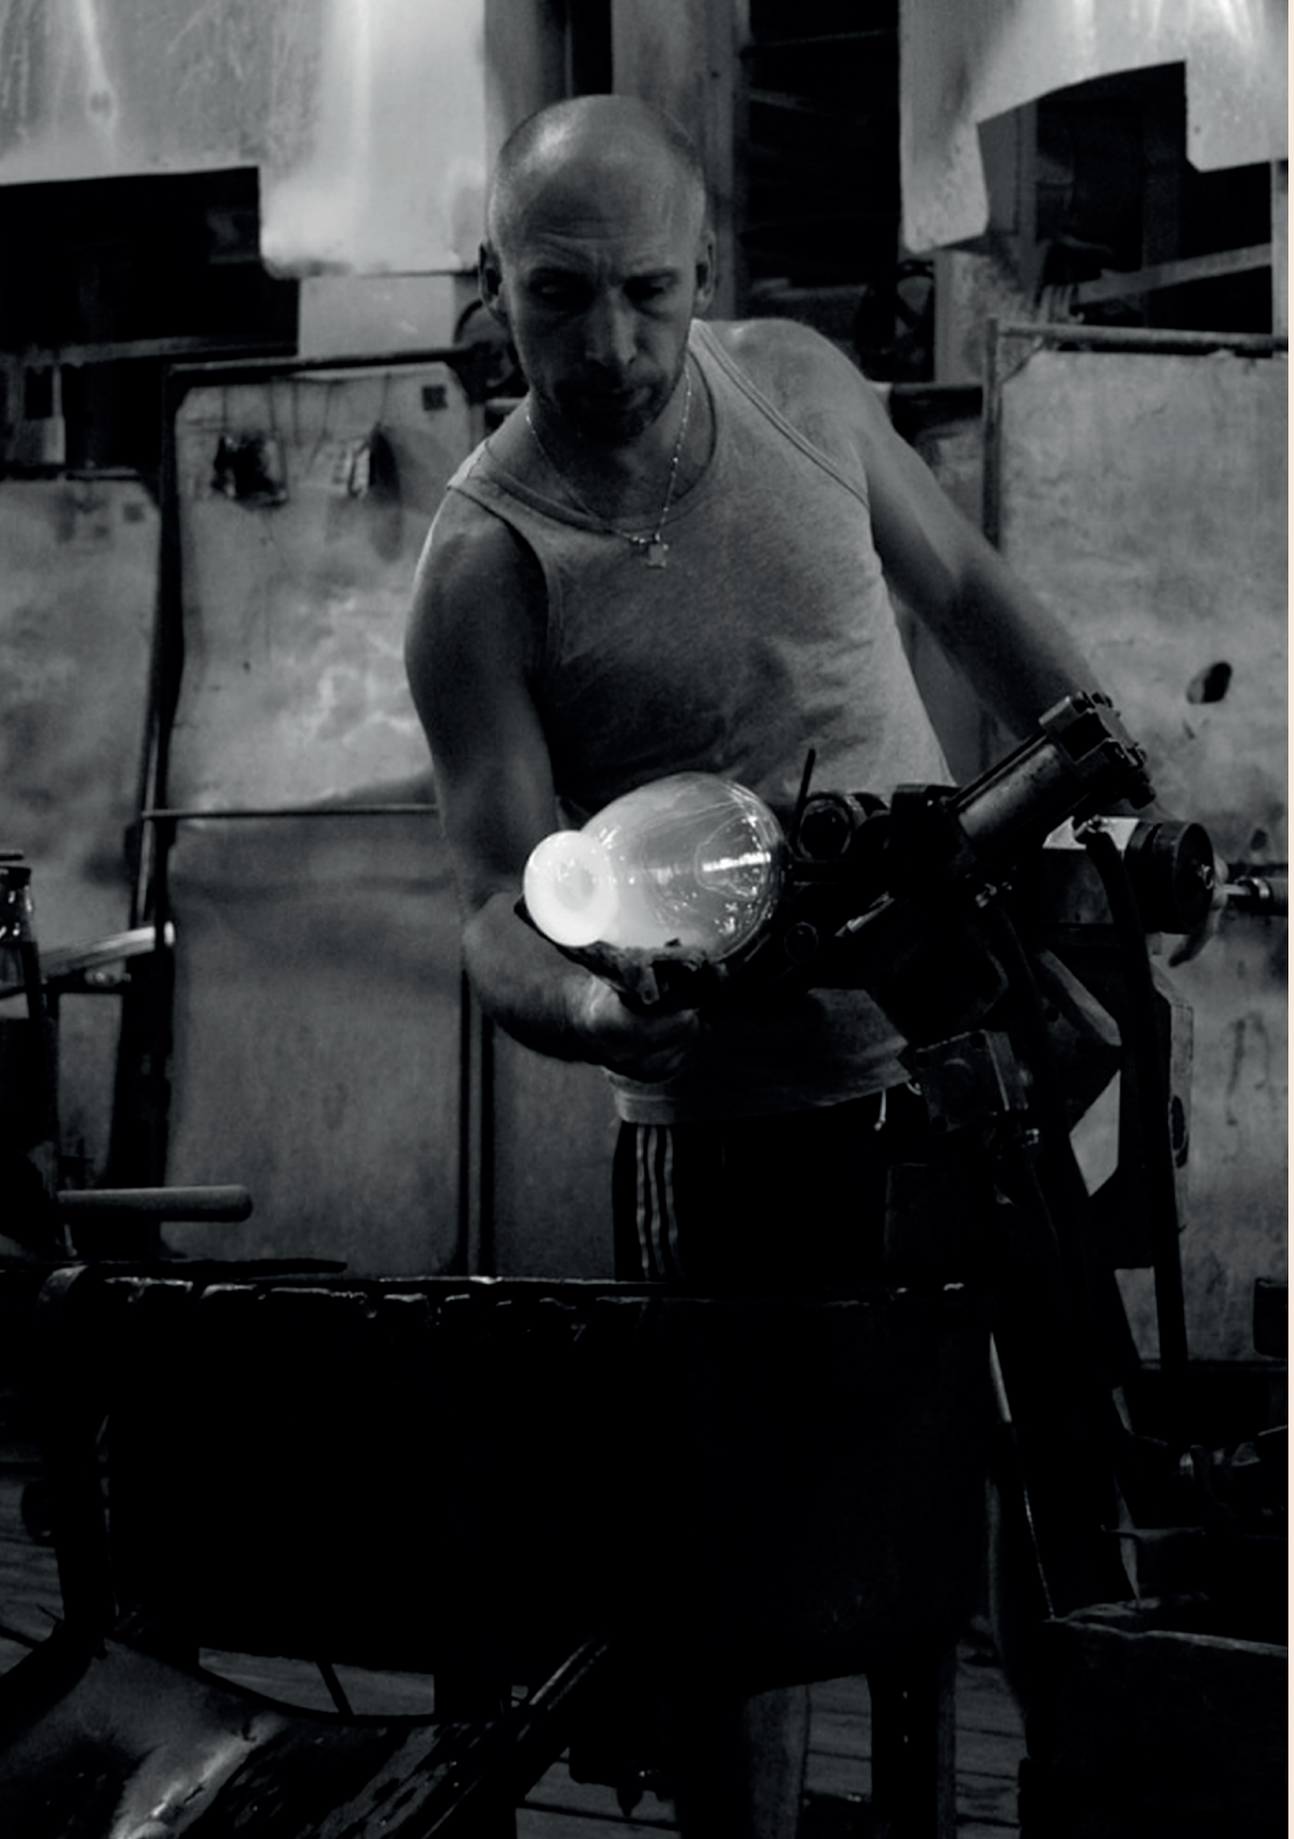

IT Sikrea è un brand che nasce vent'anni fa dall'esperienza di Contemporanea Srl, frutto del perfetto equilibrio tra sapienza artigianale e ricerca di nnovazione e modernità, dando vita a collezioni di illuminazione che esprimono stile ed esclusività.
La mission di Sikrea è chiara: offrire soluzioni di illuminazione dal forte impatto estetico e dalla massima resa funzionale, rivolgendosi a un pubblico alla ricerca di prodotti di design che sappiano arricchire gli ambienti. Le nostre creazioni sono pensate per valorizzare sia spazi residenziali che ambienti commerciali, donando loro un'identità unica grazie a un segno decorativo distintivo.

EN Sikrea is a brand that was born twenty years ago from the experience of Contemporanea Srl, the result of a perfect balance between craftsmanship expertise and the pursuit of innovation and modernity, giving life to lighting collections that embody style and exclusivity.
Sikrea's mission is clear: to offer lighting solutions with a strong aesthetic impact and maximum functional performance, catering to an audience seeking design products that enhance living spaces. Our creations are designed to elevate both residential and commercial environments, giving them a unique identity through a distinctive decorative touch.

DE Sikrea ist eine Marke, die vor zwanzig Jahren aus der Erfahrung von Contemporanea Srl entstanden ist – das Ergebnis des perfekten Gleichgewichts zwischen handwerklichem Können und der Suche nach Innovation und Modernität. So entstehen Beleuchtungskollektionen, die Stil und Exklusivität verkörpern.
Die Mission von Sikrea ist klar: Beleuchtungslösungen mit hoher ästhetischer Wirkung und maximaler funktionaler Leistung anzubieten, die sich an ein Publikum richten, das auf der Suche nach Designprodukten ist, die Räume bereichern. Unsere Kreationen sind darauf ausgelegt, sowohl Wohn- als auch Geschäftsräume aufzuwerten und ihnen durch ein unverwechselbares dekoratives Zeichen eine einzigartige Identität zu verleihen.

ES Sikrea es una marca que nació hace veinte años de la experiencia de Contemporanea Srl, fruto del equilibrio perfecto entre el conocimiento artesanal y la búsqueda de innovación y modernidad, dando vida a colecciones de iluminación que expresan estilo y exclusividad.La misión de Sikrea es clara: ofrecer soluciones de iluminación con un fuerte impacto estético y el máximo rendimiento funcional, dirigidas a un público en busca de productos de diseño que enriquezcan los ambientes. Nuestras creaciones están diseñadas para realzar tanto espacios residenciales como entornos comerciales, otorgándoles una identidad única gracias a un distintivo toque decorativo.

FR Sikrea est une marque née il y a vingt ans de l'expérience de Contemporanea Srl, fruit d'un parfait équilibre entre savoir-faire artisanal et recherche d'innovation et de modernité, donnant vie à des collections d'éclairage qui expriment style et exclusivité.La mission de Sikrea est claire : offrir des solutions d'éclairage au fort impact esthétique et à la performance fonctionnelle optimale, s'adressant à un public en quête de produits design capables d'enrichir les espaces. Nos créations sont conçues pour mettre en valeur aussi bien les espaces résidentiels que les environnements commerciaux, leur conférant une identité unique grâce à une signature décorative distinctive.

MAESTRIA VETRAIA

GLASSMAKING MASTERY

IT Sikrea sceglie il vetro come materiale principale delle proprie collezioni, diventando un punto di riferimento nel settore.
Il brand punta sulla lavorazione artigianale Made in Italy, valorizzando la tradizione e l'eccellenza manifatturiera.
Lavoriamo il vetro con la tecnica della soffiatura, utilizzando anche vetro borosilicato per garantire leggerezza, resistenza e raffinatezza. Oggi, la possibilità di sviluppare prodotti in vetro in esclusiva è sfruttata appieno dai nostri designer, che collaborano direttamente con i maestri vetrai per trasformare le loro idee in realtà. L'incontro tra creatività e artigianato, unito alla produzione interna del vetro, ci permette di offrire prodotti unici e di alta qualità, perfettamente in linea con la nostra visione e le esigenze dei nostri clienti.

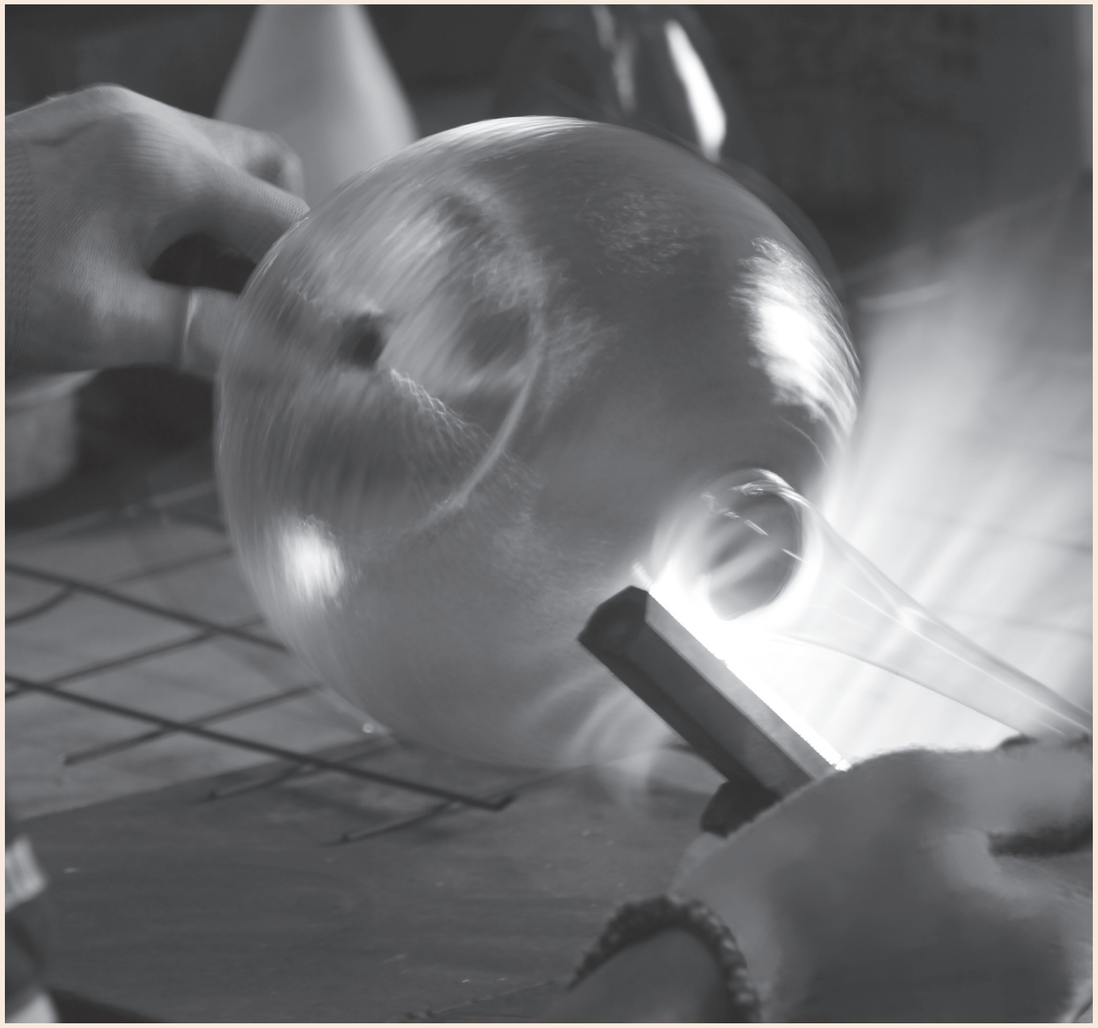

EN Sikrea chooses glass as the main material for its collections, becoming a key reference in the industry.
The brand focuses on artisanal craftsmanship Made in Italy, enhancing tradition and manufacturing excellence.
We work with glass using the blowing technique, also utilizing borosilicate glass to ensure lightness, durability, and elegance. Today, the opportunity to develop exclusive glass products is fully embraced by our designers, who work closely with master glassmakers to bring their concepts to life.The fusion of creativity and craftsmanship, combined with in-house glass production, allows us to offer unique, high-quality products that perfectly align with our vision and our customers' needs.

DE Sikrea wählt Glas als Hauptmaterial für seine Kollektionen und wird so zu einem Bezugspunkt in der Branche.
Die Marke setzt auf handwerkliche Verarbeitung „Made in Italy" und hebt Tradition sowie exzellente Handwerkskunst hervor.
Wir verarbeiten Glas mit der Technik des Glasblasens und verwenden auch Borosilikatglas, um Leichtigkeit, Widerstandsfähigkeit und Eleganz zu gewährleisten. Heute wird die Möglichkeit, Glasprodukte exklusiv zu entwickeln, von unseren Designern voll ausgeschöpft. Sie arbeiten direkt mit den Glasmeistern zusammen, um ihre Konzepte in die Realität umzusetzen.Die Verbindung von Kreativität und Handwerkskunst, kombiniert mit der internen Glasproduktion, ermöglicht es uns, einzigartige und hochwertige Produkte anzubieten, die perfekt mit unserer Vision und den Bedürfnissen unserer Kunden übereinstimmen.

ES Sikrea elige el vidrio como material principal de sus colecciones, convirtiéndose en un referente en el sector.
La marca apuesta por el trabajo artesanal Made in Italy, destacando la tradición y la excelencia manufacturera.
Trabajamos el vidrio con la técnica del soplado, utilizando también vidrio de borosilicato para garantizar ligereza, resistencia y refinamiento. Hoy en día, la posibilidad de desarrollar productos de vidrio en exclusiva es plenamente aprovechada por nuestros diseñadores, quienes colaboran directamente con los maestros vidrieros para transformar sus ideas en realidad. El encuentro entre creatividad y artesanía, junto con la producción interna del vidrio, nos permite ofrecer productos únicos y de alta calidad, perfectamente alineados con nuestra visión y las necesidades de nuestros clientes.

FR Sikrea choisit le verre comme matériau principal de ses collections, devenant ainsi une référence dans le secteur.
La marque mise sur le savoir-faire artisanal du Made in Italy, en valorisant la tradition et l'excellence manufacturière.
Nous travaillons le verre avec la technique du soufflage, en utilisant également du verre borosilicaté pour garantir légèreté, résistance et raffinement. Aujourd'hui, la possibilité de développer des produits en verre de manière exclusive est pleinement exploitée par nos designers, qui collaborent directement avec les maîtres verriers pour transformer leurs idées en réalité. La rencontre entre créativité et artisanat, alliée à une production interne du verre, nous permet d'offrir des produits uniques et de haute qualité, parfaitement alignés avec notre vision et les exigences de nos clients.

02

IT Il vetro borosilicato delle lampade Sikrea viene lavorato con tecniche artigianali di precisione. Resistente al calore e agli shock termici, viene soffiato e modellato con cura per ottenere forme eleganti e raffinate. La trasparenza cristallina e la durabilità garantiscono design sofisticati, perfetti per ambienti moderni e accoglienti.

EN The borosilicate glass of Sikrea lamps is crafted with precise artisanal techniques. Heat and thermal shock resistant, it is carefully blown and shaped to achieve elegant and refined forms. Its crystal-clear transparency and durability ensure sophisticated designs, perfect for modern and welcoming spaces.

DE Das Borosilikatglas der Sikrea-Lampen wird mit präziser handwerklicher Technik verarbeitet. Hitzebeständig und stoßfest, wird es sorgfältig geblasen und geformt, um elegante und raffinierte Formen zu schaffen. Die kristallklare Transparenz und Langlebigkeit garantieren ein anspruchsvolles Design, perfekt für moderne und gemütliche Räume.

ES El vidrio borosilicato de las lámparas Sikrea se trabaja con técnicas artesanales de precisión. Resistente al calor y a los choques térmicos, se sopla y moldea cuidadosamente para lograr formas elegantes y refinadas. Su transparencia cristalina y durabilidad garantizan diseños sofisticados, perfectos para ambientes modernos y acogedores.

FR Le verre borosilicate des lampes Sikrea est travaillé avec des techniques artisanales de précision. Résistant à la chaleur et aux chocs thermiques, il est soufflé et façonné avec soin pour obtenir des formes élégantes et raffinées. Sa transparence cristalline et sa durabilité garantissent un design sophistiqué, parfait pour des espaces modernes et accueillants.

DA VETRO A EMOZIONE

FROM GLASS TO EMOTION

IT I nostri vetri non sono semplicemente verniciati, ma decorati attraverso la tecnica della galvanizzazione, un processo chimico che sublima la materia senza alterarla. A differenza della verniciatura, questa tecnologia garantisce una bellezza eterna: i colori restano vivi e immutabili nel tempo, la decorazione diventa parte integrante del vetro, senza sfaldarsi né perdere brillantezza. Il risultato è un'eleganza senza compromessi, una superficie che conserva intatta la sua purezza e il suo splendore. Con la galvanizzazione, il vetro si trasforma in un'opera senza tempo, in cui estetica e durabilità si fondono in perfetta armonia.

EN Our glass is not merely painted but decorated using the galvanization technique, a chemical process that enhances the material without altering it. Unlike traditional painting, this technology ensures eternal beauty: colors remain vivid and unchanging over time, while the decoration becomes an integral part of the glass, never peeling or losing its brilliance. The result is uncompromising elegance—a surface that preserves its purity and radiance indefinitely. Through galvanization, glass is transformed into a timeless masterpiece, where aesthetics and durability merge in perfect harmony.

DE Unsere Gläser sind nicht einfach nur lackiert, sondern durch die Technik der Galvanisierung veredelt – ein chemischer Prozess, der die Materie sublimiert, ohne sie zu verändern. Im Gegensatz zur Lackierung garantiert diese Technologie eine zeitlose Schönheit: Die Farben bleiben lebendig und unverändert, die Dekoration wird ein integraler Bestandteil des Glases, ohne sich abzulösen oder an Glanz zu verlieren. Das Ergebnis ist kompromisslose Eleganz – eine Oberfläche, die ihre Reinheit und ihren Glanz unberührt bewahrt. Mit der Galvanisierung wird Glas zu einem zeitlosen Kunstwerk, in dem Ästhetik und Langlebigkeit in perfekter Harmonie verschmelzen.

ES Nuestros vidrios no están simplemente pintados, sino decorados mediante la técnica de galvanización, un proceso químico que sublima la materia sin alterarla. A diferencia de la pintura, esta tecnología garantiza una belleza eterna: los colores permanecen vivos e inmutables con el tiempo, la decoración se convierte en parte integral del vidrio, sin desprenderse ni perder su brillo. El resultado es una elegancia sin concesiones, una superficie que conserva intacta su pureza y esplendor. Con la galvanización, el vidrio se transforma en una obra atemporal, donde la estética y la durabilidad se fusionan en perfecta armonía.

FR Nos verres ne sont pas simplement peints, mais décorés grâce à la technique de la galvanisation, un processus chimique qui sublime la matière sans l'altérer. Contrairement à la peinture, cette technologie garantit une beauté éternelle : les couleurs restent vives et inaltérables dans le temps, la décoration devient partie intégrante du verre, sans s'écailler ni perdre son éclat. Le résultat est une élégance sans compromis, une surface qui conserve intactes sa pureté et sa splendeur. Avec la galvanisation, le verre se transforme en une œuvre intemporelle, où l'esthétique et la durabilité s'unissent en parfaite harmonie.

03

SIKREA DESIGNER

IT Il team di designer di Sikrea rappresenta una realtà dinamica e versatile.
Il design Sikrea trova radici nella visione di Contemporanea srl, che grazie alla sua esperienza e intuizione ha gettato le basi per un'estetica distintiva, caratterizzata da un design ricercato e funzionale. Il suo team di professionisti qualificati e appassionati è in continua ricerca di ottenere il miglior risultato che risponda al tempo stesso a criteri di funzionalità ed estetica.
Negli anni, questo approccio si è ampliato con l'ingresso di designer e architetti altamente qualificati, che collaborano con il team di ricerca e sviluppo per esplorare nuove idee e soluzioni creative. Insieme, hanno saputo unire competenze tecniche e concetti stilistici diversi, dando vita a prodotti che riflettono una profonda cura per i dettagli e una costante ricerca dell'eccellenza. L'identità di Sikrea è così il risultato di una visione condivisa e di un impegno comune per offrire design originali e materiali innovativi, sempre al passo con le tendenze più attuali.

EN The Sikrea design team embodies a dynamic and versatile reality.
Sikrea's design is rooted in the vision of Contemporanea srl, which, thanks to its experience and insight, has laid the foundation for a distinctive aesthetic characterized by refined and functional design. Its team of qualified and passionate professionals is constantly striving to achieve the best results that meet both functional and aesthetic standards.
Over the years, this approach has been enriched by the addition of highly skilled designers and architects who work alongside the research and development team to explore new ideas and creative solutions. Together, they have combined technical expertise and diverse stylistic concepts, producing products that reflect meticulous attention to detail and a continuous pursuit of excellence. Sikrea's identity is thus the outcome of a shared vision and a common commitment to delivering original designs and innovative materials, always in line with the latest trends.

DE Das Designerteam von Sikrea repräsentiert eine dynamische und vielseitige Realität.
Das Design von Sikrea wurzelt in der Vision von Contemporanea srl, die dank ihrer Erfahrung und Intuition die Grundlage für eine unverwechselbare Ästhetik geschaffen hat, die sich durch anspruchsvolles und funktionales Design auszeichnet. Das Team aus qualifizierten und leidenschaftlichen Fachleuten ist stets bestrebt, das bestmögliche Ergebnis zu erzielen, das sowohl funktionalen als auch ästhetischen Ansprüchen gerecht wird.
Im Laufe der Jahre wurde dieser Ansatz durch die Hinzunahme hochqualifizierter Designer und Architekten erweitert, die mit dem Forschungs- und Entwicklungsteam zusammenarbeiten, um neue Ideen und kreative Lösungen zu erforschen. Gemeinsam haben sie es geschafft, technische Kompetenzen und stilistische Konzepte zu vereinen und Produkte zu schaffen, die durch eine tiefe Liebe zum Detail und ein ständiges Streben nach Perfektion geprägt sind. Die Identität von Sikrea ist somit das Ergebnis einer geteilten Vision und eines gemeinsamen Engagements, originelles Design und innovative Materialien anzubieten, die stets im Einklang mit den neuesten Trends stehen.

ES El equipo de designer de Sikrea representa una realidad dinámica y versátil.
El design de Sikrea encuentra sus raíces en la visión de Contemporanea srl, que gracias a su experiencia e intuición ha sentado las bases de una estética distintiva, caracterizada por un diseño refinado y funcional. Su equipo de profesionales cualificados y apasionados está en constante búsqueda de obtener el mejor resultado, que a la vez cumpla con criterios de funcionalidad y estética.
A lo largo de los años, este enfoque se ha ampliado con la incorporación de diseñadores y arquitectos altamente cualificados, que colaboran con el equipo de investigación y desarrollo para explorar nuevas ideas y soluciones creativas. Juntos han logrado combinar competencias técnicas y conceptos estilísticos diversos, dando lugar a productos que reflejan una profunda atención al detalle y una búsqueda continua de la excelencia. La identidad de Sikrea es, por tanto, el resultado de una visión compartida y de un compromiso común por ofrecer diseños originales y materiales innovadores, siempre a la vanguardia de las tendencias más actuales.

FR L'équipe de designers de Sikrea représente une réalité dynamique et polyvalente.
Le design Sikrea trouve ses racines dans la vision de Contemporanea srl, qui, grâce à son expérience et à son intuition, a jeté les bases d'une esthétique distinctive, caractérisée par un design soigné et fonctionnel. Son équipe de professionnels qualifiés et passionnés est en quête permanente du meilleur résultat, répondant à la fois à des critères de fonctionnalité et d'esthétique.
Au fil des années, cette approche s'est enrichie avec l'arrivée de designers et d'architectes hautement qualifiés, qui collaborent avec l'équipe de recherche et développement pour explorer de nouvelles idées et des solutions créatives. Ensemble, ils ont su allier compétences techniques et concepts stylistiques variés, donnant naissance à des produits qui reflètent une attention méticuleuse aux détails et une quête constante de l'excellence. L'identité de Sikrea est ainsi le fruit d'une vision partagée et d'un engagement commun pour offrir des designs originaux et des matériaux innovants, toujours en phase avec les tendances les plus actuelles.

04

CONTEMPORANEA SRL
Michele e Stefano Cecconato

Creare luce per noi significa unire design e tecnologia. Ogni lampada non è solo un oggetto, ma un equilibrio perfetto tra materiali, efficienza luminosa e innovazione per migliorare la vita quotidiana dei nostri clienti.

MIRCO MEMOLA

Collaboratore da 23 anni, un professionista del design appassionato di arte e tecnologia, sempre alla ricerca di innovazione. Con l'anima di un artigiano e la visione di un creativo, trasformo la luce in emozione, fondendo estetica, funzionalità e sperimentazione per dar vita a creazioni uniche.

MARZIO PARIS

Credo che la luce non sia solo illuminazione, ma emozione pura.
Un elemento che scolpisce lo spazio, crea atmosfere e trasforma ogni ambiente in un esperienza sensoriale unica.

LUCA SILINGARDI

Immagino la luce come un dettaglio che fa la differenza: non un semplice accessorio ma un elemente che interagisce con le forme, esalta i materiali e da carattere agli oggetti.

ROBERTA REBELLATO

La luce definisce la percezione dello spazio: modella i volumi, enfatizza i materiali e bilancia ombre e riflessi. Un progetto di interior ben riuscito inizia sempre da un'illuminazione studiata con cura.

LUCA MEREU

La luce è un materiale di progetto, tanto quanto il cemento o il legno. Definisce i volumi, guida la percezione degli spazi e crea connessioni tra architettura, funzione ed emozione.

La lampada a sospensione Ibis è realizzata in vetro borosilicato, noto per la sua resistenza termica e meccanica. Il diffusore esterno, lavorato a mano da esperti maestri vetrai, è decorato con sfumature nelle varianti fumè, terra e petrolio. Internamente, il vetro satinato svolge la doppia funzione di schermare la lampadina E27 e diffondere la luce in maniera uniforme e delicata. La montatura metallica presenta una finitura coordinata alla tonalità del vetro scelto, garantendo un risultato estetico armonioso. Adatta a molteplici ambienti, Ibis coniuga precisione tecnica e artigianalità, assicurando qualità illuminotecnica, durabilità nel tempo e un'elegante presenza scenica.

The Ibis suspension lamp is crafted from borosilicate glass, recognized for its thermal and mechanical durability. The outer diffuser, handcrafted by skilled master glassmakers, features nuanced finishes in smoked, earth, and petroleum shades. Internally, a satin glass layer serves the dual purpose of concealing the E27 bulb and providing uniform, soft illumination. The metal frame matches the selected glass finish, ensuring aesthetic consistency. Suitable for various interior spaces, the Ibis lamp seamlessly blends technical precision with artisanal craftsmanship, delivering excellent lighting performance, lasting durability, and an elegant visual presence.

Die Hängeleuchte Ibis ist aus Borosilikatglas gefertigt, das für seine thermische und mechanische Widerstandsfähigkeit bekannt ist. Der äußere Glasschirm ist von erfahrenen Glasmeistern handgefertigt und in den Farbtönen Rauchgrau, Erde und Petrol mit sanften Farbverläufen dekoriert. Innen sorgt ein satiniertes Glas zugleich für eine gleichmäßige Lichtstreuung und dient als Blendschutz für das Leuchtmittel E27. Die Metallhalterung ist farblich auf das Glas abgestimmt, um eine harmonische Gesamtoptik zu gewährleisten. Vielseitig einsetzbar vereint die Lampe Ibis technische Präzision mit traditioneller Handwerkskunst und garantiert hochwertige Lichtqualität, Langlebigkeit sowie eine elegante, dekorative Wirkung im Raum.

La lámpara colgante Ibis está fabricada en vidrio borosilicato, reconocido por su alta resistencia térmica y mecánica. Su difusor externo, decorado a mano por experimentados maestros vidrieros, presenta tonalidades cuidadosamente difuminadas en acabados fumé, tierra y petróleo. En el interior, un vidrio satinado cumple una doble función: ocultar discretamente la bombilla E27 y difundir uniformemente una luz suave y homogénea. La estructura metálica tiene un acabado coordinado con el color del vidrio elegido, ofreciendo así un resultado estético equilibrado y armonioso. Adecuada para múltiples espacios, Ibis combina precisión técnica y artesanía.

La suspension Ibis est fabriquée en verre borosilicate, reconnu pour sa haute résistance thermique et mécanique. Le diffuseur extérieur, façonné à la main par des maîtres verriers expérimentés, présente des nuances dégradées disponibles dans les finitions fumée, terre et pétrole. À l'intérieur, un verre satiné joue un double rôle : il protège l'ampoule E27 tout en diffusant une lumière douce et uniforme. La structure métallique possède une finition assortie à la teinte du verre choisi, assurant ainsi une cohérence esthétique optimale. Adaptée à de multiples environnements, la lampe Ibis allie précision technique et savoir-faire artisanal, garantissant qualité lumineuse, durabilité et élégance esthétique.

Olly rappresenta l'essenza del design minimalista, impreziosito da un raffinato accessorio in vetro soffiato, disponibile in versioni trasparenti o in tonalità moderne, che arricchisce ogni ambiente. La sua eleganza senza tempo, unita alla perfezione artigianale del vetro, dona un tocco esclusivo e sofisticato, trasformando ogni spazio con un senso di lusso discreto e funzionalità impeccabile.

Olly embodies the essence of minimalist design, enhanced by a refined hand-blown glass accessory, available in transparent or modern-toned versions, enriching any environment. Its timeless elegance, combined with the artisanal perfection of glass, adds an exclusive and sophisticated touch, transforming every space with a sense of understated luxury and impeccable functionality.

Olly verkörpert die Essenz des minimalistischen Designs, veredelt durch ein raffiniertes mundgeblasenes Glasaccessoire, das in transparenten oder modernen Farbtönen erhältlich ist und jeden Raum bereichert. Seine zeitlose Eleganz, kombiniert mit der handwerklichen Perfektion des Glases, verleiht einen exklusiven und anspruchsvollen Touch und verwandelt jeden Raum mit einer subtilen Note von Luxus und makelloser Funktionalität.

Olly representa la esencia del diseño minimalista, realzado por un refinado accesorio de vidrio soplado, disponible en versiones transparentes o en tonos modernos, que enriquece cualquier ambiente. Su elegancia atemporal, combinada con la perfección artesanal del vidrio, aporta un toque exclusivo y sofisticado, transformando cada espacio con una sensación de lujo discreto y una funcionalidad impecable.

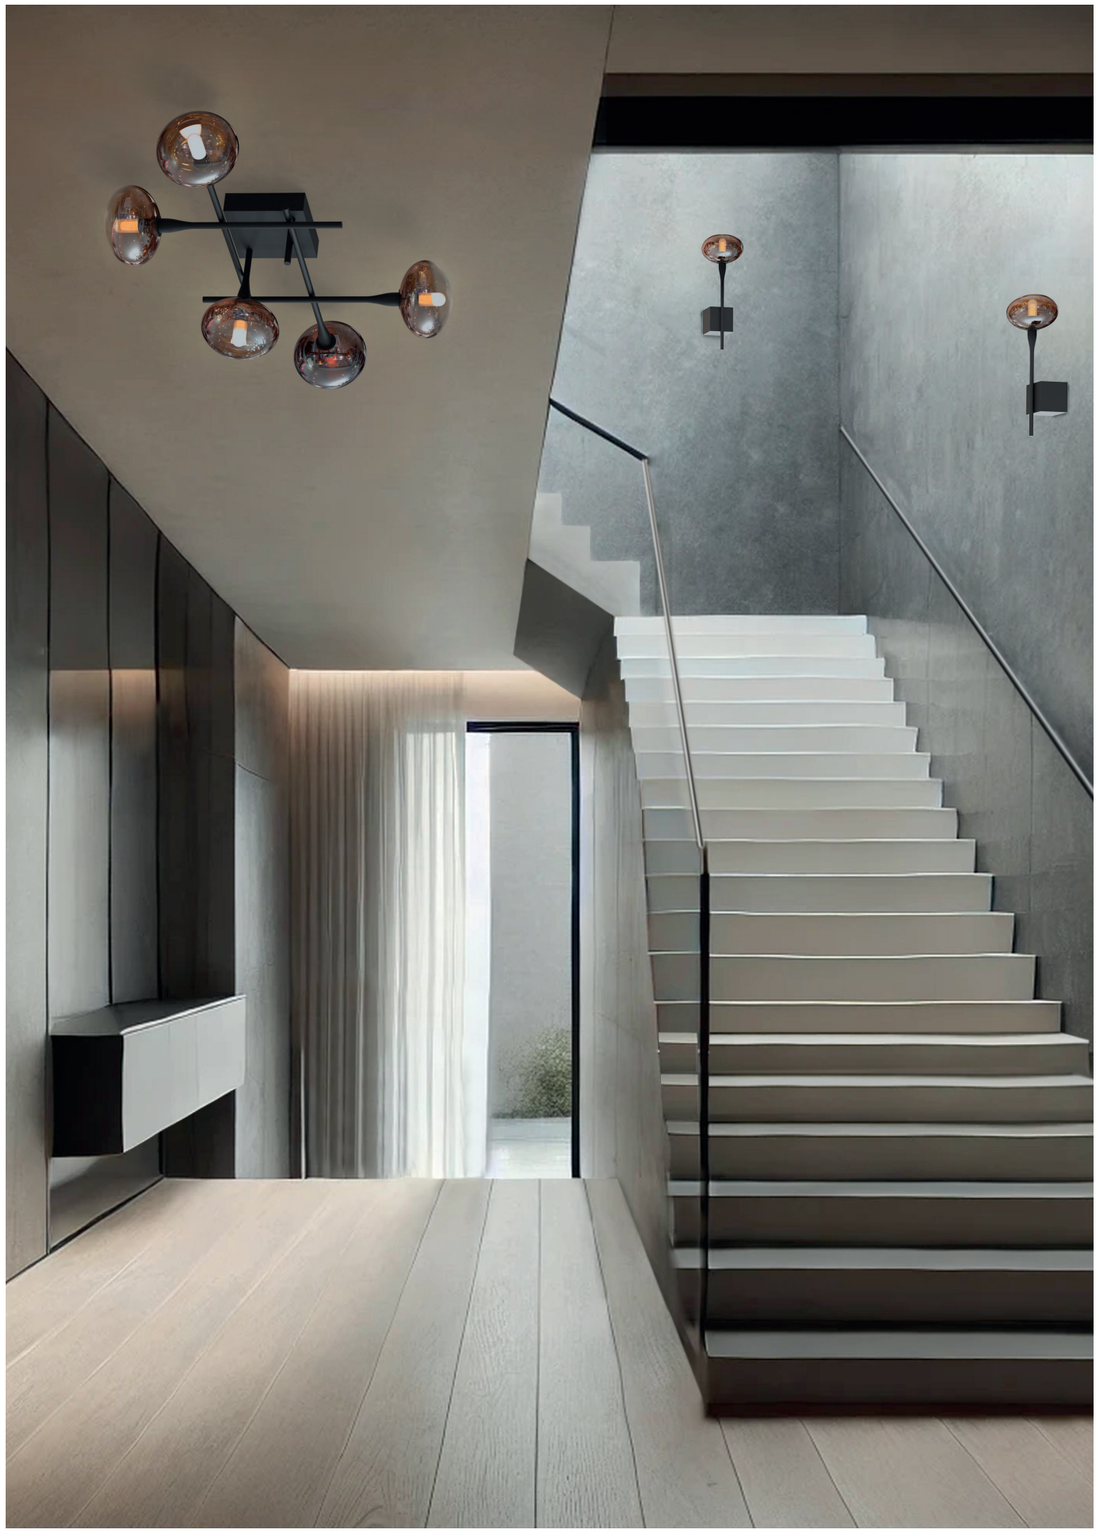

Olly représente l'essence du design minimaliste, sublimé par un accessoire raffiné en verre soufflé, disponible en versions transparentes ou dans des teintes modernes, qui enrichit chaque espace. Son élégance intemporelle, associée à la perfection artisanale du verre, apporte une touche exclusive et sophistiquée, transformant chaque environnement avec un luxe discret et une fonctionnalité impeccable.

La collezione di lampade Olly si distingue per un design minimalista e strutturato, caratterizzato da una montatura metallica in finitura nero goffrato. La struttura intrecciata crea un effetto rete geometrica, conferendo leggerezza visiva senza compromettere la solidità. L'illuminazione è data da lampadine G9, schermate da un diffusore in vetro satinato che funge anche da copri lampadina, assicurando una luce omogenea. Per un'estetica più personalizzata, sono disponibili vetri accessori nelle finiture cristallo, ambra o fumè, acquistabili separatamente. Questi elementi opzionali possono essere installati o meno a seconda delle preferenze. Di default, la lampada viene fornita senza vetri accessori.

The Olly lighting collection stands out for its minimalist and structured design, featuring a metal frame with a black embossed finish. The intertwined structure creates a geometric mesh effect, adding visual lightness without compromising solidity. The illumination is provided by G9 bulbs, shielded by a frosted glass diffuser that also acts as a bulb cover, ensuring a uniform light distribution. For a more customized aesthetic, optional glass accessories are available in crystal, amber, or smoked finishes, which can be purchased separately. These optional elements can be installed or left out depending on personal preference. By default, the lamp is supplied without glass accessories.

Die Olly-Leuchtenkollektion zeichnet sich durch ein minimalistisches und strukturiertes Design aus, das durch eine Metallhalterung in schwarz geprägter Oberfläche definiert wird. Die geflochtene Struktur erzeugt einen geometrischen Netz-Effekt, der visuelle Leichtigkeit vermittelt, ohne die Stabilität zu beeinträchtigen. Die Beleuchtung erfolgt durch G9-Leuchtmittel, die von einem satinierten Glasdiffusor umhüllt sind, der gleichzeitig als Lampenschirm dient und für eine gleichmäßige Lichtverteilung sorgt. Für eine individuellere Ästhetik sind optionale Ziergläser in den Ausführungen Kristall, Amber oder Rauchglas separat erhältlich. Diese optionalen Elemente können je nach Vorlieben installiert oder weggelassen werden. Standardmäßig wird die Lampe ohne Ziergläser geliefert.

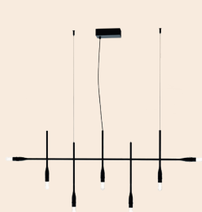

La colección de lámparas Olly se distingue por un diseño minimalista y estructurado, caracterizado por una montura metálica con acabado en negro gofrado. La estructura entrelazada crea un efecto de red geométrica, aportando ligereza visual sin comprometer la solidez. La iluminación es proporcionada por bombillas G9, cubiertas por un difusor de vidrio satinado que también actúa como cubrelámpara. Para una estética más personalizada, están disponibles vidrios accesorios en acabados cristal, ámbar o ahumado, adquiribles por separado. Estos elementos opcionales pueden instalarse o no según las preferencias. Por defecto, la lámpara se suministra sin vidrios accesorios.

La collection de lampes Olly se distingue par un design minimaliste et structuré, caractérisé par une monture métallique avec une finition noir gaufré. La structure entrelacée crée un effet de grille géométrique, apportant une légèreté visuelle sans compromettre la solidité. L'éclairage est assuré par des ampoules G9, dissimulées derrière un diffuseur en verre satiné qui fait également office de cache-ampoule. Pour une esthétique plus personnalisée, des verres accessoires sont disponibles en finitions cristal, ambre ou fumé, vendus séparément. Ces éléments optionnels peuvent être installés ou non selon les préférences. Par défaut, la lampe est fournie sans verres accessoires.

Mya è una lampada a sospensione in vetro soffiato, equipaggiata con sorgente luminosa GX53. Il corpo illuminante risulta invisibile, grazie alle lampadine integrate all'interno della montatura portante del diffusore, garantendone la protezione e l'ottimizzazione del flusso luminoso. Il vetro, lavorato e decorato a mano, assicura pregiate finiture, elevati standard di qualità, durata e robustezza. Un accessorio in finitura iridescente, simile a una bolla di sapone, esalta l'estetica del modello, conferendogli ulteriore luminosità e fascino.

Mya is a blown-glass pendant lamp equipped with a GX53 light source. The luminous body remains invisible thanks to the bulbs integrated within the diffuser's supporting mount, ensuring protection and optimizing the light output. The hand-worked, hand-decorated glass guarantees refined finishes and high standards of quality, durability, and sturdiness. An iridescent finish accessory, reminiscent of a soap bubble, further enhances the lamp's aesthetics, adding extra charm.

Mya ist eine Pendelleuchte aus Glas, mit einer GX53-Lichtquelle. Der Leuchtenkörper bleibt unsichtbar, da die Lampen in der Halterung des Diffusors integriert sind, Schutz bietet und den Lichtfluss optimiert. Das handgearbeitete Glas gewährleistet Veredelungen Qualitäts-, und Robustheitsstandards. Ein irisierendes Accessoire, das an eine Seifenblase erinnert, unterstreicht die Ästhetik der Leuchte und verleiht ihr Helligkeit und Charme.

Mya es una lámpara colgante de vidrio con una fuente de luz GX53. El cuerpo de la lámpara permanece invisible, ya que las bombillas se integran en el soporte del difusor, brindan protección y optimizan el flujo luminoso. El vidrio trabajado a mano garantiza acabados, estándares de calidad y robustez. Un accesorio iridiscente, que recuerda a una burbuja de jabón, realza la estética de la lámpara y le aporta luminosidad y encanto.

Mya est une suspension en verre équipée d'une source lumineuse GX53. Le corps lumineux reste invisible, car les ampoules sont intégrées au support du diffuseur, offrant une protection et optimisant le flux lumineux. Le verre fabriqué à la main garantit des finitions, des normes de qualité et de robustesse. Un accessoire irisé, rappelant une bulle de savon, souligne l'esthétique du luminaire et lui confère luminosité et charme.

Le lampade da tavolo e da terra EVA sono caratterizzate da basi in effetto marmo nero e montatura in ottone spazzolato, che ne esaltano l'eleganza. Il vetro è ordinabile separatamente nelle diverse finiture della collezione stessa nel diametro di 25 cm. Queste lampade si distinguono per il design sofisticato e la versatilità, perfette per arredare ambienti moderni e di classe con una luce raffinata.

The EVA table and floor lamps feature bases with a black marble effect and brushed brass frames, enhancing their elegance. The glass is available separately in various finishes from the collection, with a 25 cm diameter. These lamps stand out for their sophisticated design and versatility, making them perfect for furnishing modern and stylish spaces with refined lighting.

Die Tisch- und Stehlampen EVA zeichnen sich durch Basen im schwarzen Marmor-Effekt und eine montierte gebürstete Messingstruktur aus, die ihre Eleganz betonen. Das Glas ist separat in verschiedenen Ausführungen der Kollektion mit einem Durchmesser von 25 cm erhältlich. Diese Lampen bestechen durch ihr elegantes Design und ihre Vielseitigkeit, perfekt für moderne und anspruchsvolle Räume mit raffinierter Beleuchtung.

Las lámparas de mesa y de pie EVA se caracterizan por sus bases en efecto mármol negro y estructura en latón cepillado, lo que realza su elegancia. El cristal se puede pedir por separado en los diferentes acabados de la colección, con un diámetro de 25 cm. Estas lámparas se distinguen por su diseño sofisticado y versatilidad, perfectas para decorar ambientes modernos y elegantes con una luz refinada.

Les lampes de table et sur pied EVA sont caractérisées par des bases effet marbre noir et une structure en laiton brossé, qui mettent en valeur leur élégance. Le verre est disponible séparément dans les différentes finitions de la collection, avec un diamètre de 25 cm. Ces lampes se distinguent par leur design sophistiqué et leur polyvalence, parfaites pour décorer des espaces modernes et élégants avec une lumière raffinée.

Shown in the image: floor lamp EVA/P with petrol glass EVA/VETRO25 P

EVA

La collezione EVA comprende lampade a sospensione, da terra, da tavolo, da parete e, come novità, da soffitto. Le montature realizzate in ottone spazzolato, garantiscono resistenza e un'estetica raffinata, mentre i vetri sferici, disponibili nelle finiture petrolio, bronzo e fumè, sono lavorati artigianalmente da vetrai esperti. La particolare finitura sfumata in due colori, realizzata a mano, richiede una maestria tecnica avanzata; pertanto eventuali variazioni sono indice di unicità e artigianalità. Il cavo, rivestito in tessuto nero, completa il design e garantisce un'installazione sicura.
Questa combinazione di materiali di alta qualità assicura prestazioni ottimali e un'estetica distintiva.

The EVA collection includes pendant, floor, table, wall, and, as a new addition, ceiling lights. The mounts, made of brushed brass, ensure durability and a refined aesthetic, while the spherical glass, available in petrol, bronze, and smoked finishes, is handcrafted by expert glassmakers. The unique two-tone gradient finish, handmade, requires advanced technical craftsmanship.; therefore, any variations are a sign of uniqueness and craftsmanship. The black fabric-covered cord completes the design and ensures safe installation. This combination of high-quality materials guarantees optimal performance and a distinctive aesthetic.

Die EVA-Kollektion umfasst Pendelleuchten, Stehleuchten, Tischlampen, Wandleuchten und neu auch Deckenleuchten. Die in gebürstetem Messing gefertigten Monturen garantieren Widerstandsfähigkeit und ein raffiniertes Design, während die Kugelgläser in den Ausführungen Petrol, Bronze und Rauchglas von erfahrenen Glasbläsern handwerklich verarbeitet werden. Die besondere zweifarbige Übergangsfinition, die von Hand gefertigt wird, erfordert fortgeschrittene technische Fertigkeiten. Daher sind mögliche Abweichungen ein Zeichen der Einzigartigkeit und Handwerkskunst. Das Kabel, in schwarzem Stoff gewickelt, vervollständigt das Design und sorgt für eine sichere Installation. Diese Kombination aus hochwertigen Materialien garantiert optimale Leistung und ein markantes ästhetisches Erscheinungsbild.

La colección EVA incluye lámparas de suspensión, de pie, de mesa, de pared y de techo. Las monturas en latón cepillado garantizan resistencia y una estética refinada, mientras que los vidrios esféricos, disponibles en acabados petróleo, bronce y ahumado, son trabajados artesanalmente por vidrieros expertos. El acabado especial degradado en dos colores, realizado a mano, requiere una maestría técnica avanzada; por lo tanto, cualquier variación es un indicio de unicidad y artesanía. El cable, recubierto con tela negra, completa el diseño y garantiza una instalación segura. Esta combinación de materiales de alta calidad asegura un rendimiento óptimo y una estética distintiva.

La collection EVA comprend des lampes à suspension, sur pied, de table, murales et, en nouveauté, de plafond. Les montures en laiton brossé assurent résistance et esthétique raffinée, tandis que les verres sphériques, disponibles dans les finitions pétrole, bronze et fumé, sont fabriqués artisanalement par des maîtres verriers. La finition dégradée en deux couleurs, réalisée à la main, nécessite une maîtrise technique avancée; ainsi, toute variation est un signe d'unicité et d'artisanat. Le câble, revêtu de tissu noir, complète le design et garantit une installation sécurisée. Cette combinaison de matériaux de haute qualité assure des performances optimales et une esthétique distinctive.

La collezione Emy comprende sospensioni in vetro borosilicato lavorato artigianalmente da maestri vetrai italiani, con un distintivo cono satinato interno che funge anche da copri lampadina. Le finiture disponibili includono bronzo, fumè, rame e petrolio, ottenute mediante galvanizzazione, mentre le versioni ambra e verde presentano decorazioni realizzate con lavorazione specchio. Le montature di sostegno, in perfetto abbinamento cromatico, esaltano ulteriormente l'estetica raffinata di queste lampade. Ogni dettaglio è curato con la massima attenzione, incluso il cavo in PVC trasparente, che garantisce un design pulito e minimalista. L'insieme conferisce eleganza e funzionalità.

The Emy collection includes suspended lamps in borosilicate glass, handcrafted by Italian master glassmakers, featuring a distinctive satin-finished internal cone that also serves as a bulb cover. Available finishes include bronze, smoked, copper, and petrol, achieved through galvanization, while the amber and green versions feature decorations created using a mirror-finish process. The supporting mounts, in perfect chromatic harmony, further enhance the refined aesthetic of these lamps. Every detail is meticulously attended to, including the transparent PVC cable, which ensures a clean, minimalist design. The overall result offers both elegance and functionality.

Die Kollektion Emy umfasst Pendelleuchten aus borosilikatischem Glas, das von italienischen Glasmachern in Handarbeit gefertigt wird. Sie zeichnen sich durch einen markanten, innen satinierten Kegel aus, der zugleich als Lampenschirm dient. Die verfügbaren Oberflächen – Bronze, Rauchgrau, Kupfer und Petrol – werden durch Galvanisierung erzielt, während die Varianten in Bernstein und Grün eine spiegelnde Dekoration aufweisen. Die Trägerkonstruktionen, farblich perfekt abgestimmt, unterstreichen zusätzlich die edle Ästhetik dieser Leuchten. Jedes Detail wird mit höchster Sorgfalt umgesetzt, einschließlich des transparenten PVC-Kabels, das für ein klares, minimalistisches Design sorgt. Das Gesamtkonzept verleiht Eleganz und Funktionalität.

La colección Emy comprende lámparas colgantes de vidrio de borosilicato trabajadas artesanalmente por maestros vidrieros italianos, con un distintivo cono satinado interno que también actúa como cubrebombilla. Los acabados disponibles incluyen bronce, ahumado, cobre y petróleo, obtenidos mediante galvanización, mientras que las versiones ámbar y verde presentan decoraciones realizadas con técnica de espejo. Las monturas de soporte, en perfecta sintonía cromática, realzan aún más la estética refinada de estas lámparas. Cada detalle se cuida con la máxima atención, incluido el cable de PVC transparente, que garantiza un diseño limpio y minimalista.

La collection Emy se compose de suspensions en verre borosilicate, travaillées artisanalement par des maîtres verriers italiens, avec un cône satiné interne distinctif faisant également office de cache-ampoule. Les finitions disponibles incluent bronze, fumé, cuivre et pétrole, obtenues par galvanisation, tandis que les versions ambre et vert présentent des décorations réalisées par un procédé miroir. Les montures de support, parfaitement assorties sur le plan chromatique, exaltent davantage l'esthétique raffinée de ces lampes. Chaque détail est soigné avec la plus grande attention, y compris le câble en PVC transparent, qui assure un design épuré et minimaliste.

Offriamo basi a soffitto personalizzate, realizzate su misura per soddisfare le esigenze specifiche di ogni cliente. Contattaci per maggiori informazioni e per scoprire le soluzioni più adatte al tuo progetto.

We offer customized ceiling bases, tailor-made to meet each client's specific needs. Contact us for more information and to discover the solutions best suited to your project.

Sikrea combina design e innovazione per offrire soluzioni illuminotecniche su misura, progettate per integrarsi armoniosamente in qualsiasi ambiente. Ogni creazione nasce da un attento studio della luce, con configurazioni personalizzabili che esaltano le architetture e soddisfano le esigenze specifiche di ogni progetto.
L'eccellenza del Made in Italy si riflette nella qualità dei materiali, nella cura artigianale dei dettagli e nella ricerca costante di nuove forme espressive, trasformando ogni spazio in un'esperienza luminosa unica.

Sikrea combines design and innovation to offer tailor-made lighting solutions, designed to blend harmoniously into any environment. Each creation is the result of a meticulous study of light, with customizable configurations that enhance architectural features and meet the specific needs of every project.
The excellence of Made in Italy is reflected in the quality of materials, the artisanal attention to detail, and the constant pursuit of new expressive forms, transforming every space into a unique lighting experience.

INFINITY

La collezione Infinity presenta sospensioni in vetro borosilicato, lavorato a mano da maestri vetrai specializzati, disponibili in quattro dimensioni. La decorazione impiega la tecnica di galvanizzazione per le finiture bronzo, fumè, rame e petrolio, mentre i modelli ambra e verde utilizzano una lavorazione a specchio per un effetto riflettente. Le montature di sostegno, realizzate con metalli in finitura coordinata, assicurano un'estetica integrata e robustezza strutturale. I cavi in PVC trasparente minimizzano l'impatto visivo, esaltando la purezza formale del diffusore. Infinity coniuga artigianalità, elevata qualità del vetro e attenzione progettuale, offrendo alte prestazioni luminose.

The Infinity collection features borosilicate glass pendants, handcrafted by specialized master glassmakers, available in four sizes. The decoration process employs galvanic finishing for the bronze, smoked, copper, and petroleum versions, while the amber and green models use a mirror treatment for a reflective effect. The supporting frames, made of metals in coordinated finishes, ensure an integrated aesthetic and structural solidity. Transparent PVC cables minimize visual impact, highlighting the diffuser's formal purity. Infinity combines craftsmanship, high-grade glass quality, and careful design, delivering high luminous performance.

Die Kollektion Infinity bietet Pendelleuchten aus Borosilikatglas, das von spezialisierten Glasmeistern in Handarbeit gefertigt wird und in vier Größen erhältlich ist. Für die Ausführungen Bronze, Rauchgrau, Kupfer und Petrol kommt eine Galvanisierung zum Einsatz, während die Varianten Bernstein und Grün mit einer Spiegeleffekt-Veredelung versehen sind. Die Trägerstrukturen aus Metall in passender Oberflächenbehandlung gewährleisten ein integriertes Erscheinungsbild und hohe Stabilität. Durch das transparente PVC-Kabel wird der visuelle Einfluss minimiert und die formale Reinheit des Diffusors betont. Infinity vereint handwerkliches Können, hohe Glasqualität und durchdachtes Design und bietet dabei eine leistungsstarke Lichtwiedergabe.

La colección Infinity presenta lámparas colgantes de vidrio de borosilicato, trabajado a mano por maestros vidrieros especializados. La decoración utiliza la técnica de galvanización para los acabados bronce, ahumado, cobre y petróleo, mientras que los modelos ámbar y verde emplean un proceso de espejo para un efecto reflectante. Las monturas de soporte, fabricadas con metales en acabado coordinado, garantizan una estética integrada. Los cables de PVC transparente minimizan el impacto visual, destacando la pureza formal del difusor. Infinity combina la artesanía, la alta calidad del vidrio y la atención en el diseño, ofreciendo un rendimiento lumínico sobresaliente.

La collection Infinity propose des suspensions en verre borosilicate, travaillées à la main par des maîtres verriers s pécialisés. La décoration repose sur la technique de galvanisation pour les finitions bronze, fumé, cuivre et pétrole, tandis que les modèles ambre et vert utilisent un traitement miroir pour un effet réfléchissant. Les montures de soutien, réalisées avec des métaux en finition coordonnée, assurent une esthétique intégrée et une robustesse structurelle. Les câbles en PVC transparent minimisent l'impact visuel, mettant en valeur la pureté formelle du diffuseur. Infinity associe artisanat, qualité élevée du verre et conception soignée, offrant de hautes performances lumineuses.

Fyll è un sistema di illuminazione caratterizzato da un diffusore in PMMA con finitura effetto corda, al cui interno è integrata una strip LED CCT, garantendo un'emissione luminosa uniforme e regolabile. Disponibile nelle versioni plafoniera e applique, assicura versatilità applicativa. Inoltre, il diffusore è acquistabile nelle lunghezze di 200, 300 o 400 cm, prive di base, che deve essere selezionata e ordinata a parte tra le soluzioni modulari disponibili.

Fyll is a lighting system featuring a PMMA diffuser with a rope-like finish, incorporating an integrated CCT LED strip that ensures uniform and adjustable light emission. Available in ceiling and wall-mounted versions, it offers versatile application possibilities. Additionally, the diffuser can be purchased separately in lengths of 200, 300, or 400 cm, without a base, which must be selected and ordered separately from the available modular solutions.

Fyll ist ein Beleuchtungssystem mit einem PMMA-Diffusor in Seiloptik, in dem ein CCT-LED-Strip integriert ist, der eine gleichmäßige und einstellbare Lichtemission gewährleistet. Erhältlich als Decken- und Wandleuchte, bietet es vielseitige Einsatzmöglichkeiten. Zudem ist der Diffusor in den Längen 200, 300 oder 400 cm erhältlich, jedoch ohne Basis, die separat aus den verfügbaren modularen Lösungen ausgewählt und bestellt werden muss.

Fyll es un sistema de iluminación caracterizado por un difusor de PMMA con acabado efecto cuerda, en cuyo interior se integra una tira LED CCT, garantizando una emisión luminosa uniforme y regulable. Disponible en versiones plafón y aplique, ofrece una gran versatilidad de aplicación. Además, el difusor se puede adquirir en longitudes de 200, 300 o 400 cm, sin base, la cual debe pedirse por separado entre las soluciones modulares.

Fyll est un système d'éclairage caractérisé par un diffuseur en PMMA avec une finition effet corde, intégrant une bande LED CCT à l'intérieur, garantissant une émission lumineuse uniforme et réglable. Disponible en versions plafonnier et applique, il offre une grande flexibilité. De plus, le diffuseur est disponible à l'achat en longueurs de 200, 300 ou 400 cm, sans base, qui doit être commandée séparément parmi les solutions modulaires disponibles.

KIRA

Shown in the image: single hanging lamp KIRA/S1 with accesory SFERA/1 O

Presentiamo il nuovo accessorio in vetro per l'articolo Kira, realizzato con le classiche e sofisticate murrine veneziane. Questa creazione è frutto del lavoro di esperti maestri vetrai veneziani, che utilizzano tecniche tradizionali per ottenere un risultato unico e raffinato. Le murrine, con i loro delicati motivi colorati, arricchiscono il design, conferendo eleganza e un tocco di arte artigianale a ogni pezzo.

Introducing the new glass accessory for the Kira item, made with classic and sophisticated Venetian murrine. This creation is the result of skilled Venetian glassmakers who use traditional techniques to achieve a unique and refined outcome. The murrine, with their delicate colored patterns, enrich the design, adding elegance and a touch of artisanal art to each piece.

Wir präsentieren das neue Glaszubehör für den Artikel Kira, hergestellt mit klassischen, eleganten venezianischen Murrinen. Diese Kreation ist das Ergebnis erfahrener venezianischer Glasbläser, die traditionelle Techniken anwenden, um ein einzigartiges, raffiniertes Ergebnis zu erzielen. Die Murrinen mit zarten, farbigen Mustern verleihen jedem Stück Eleganz und handwerkliche Kunst.

Presentamos el nuevo accesorio de vidrio para el artículo Kira, realizado con las clásicas y sofisticadas murrinas venecianas. Esta creación es el resultado del trabajo de expertos maestros vidrieros venecianos, que utilizan técnicas tradicionales para obtener un resultado único y refinado. Las murrinas, con sus delicados patrones de colores, enriquecen el diseño, aportando elegancia y un toque de arte artesanal a cada pieza.

Accessorio venduto separatamente.
Ciascun accessorio viene installato singolarmente nel diffusore in vetro dei modelli Kira, sostenuto grazie a delle o-ring siliconiche trasparenti. Ciascun accessorio può essere installato in qualsiasi momento, anche a montaggio della lampada completato (ad eccezione di eventuali installazioni orizzontali).

Accessory sold separately.
Each accessory is installed individually in the glass diffuser of the Kira models, supported by o-rings transparent silicones. Each accessory can be installed at any time, even when the lamp has been assembled (with the exception of any horizontal installations).

YOKO

Shown in the image: composition on 6 lights YOKO/C on radial base BASE/6R N

La lampada Yoko è composta da una struttura in metallo verniciato nero opaco, che sostiene un tubo in vetro satinato. Il componente decorativo è realizzato in vetro borosilicato, disponibile nelle finiture ambra, cristallo, fumè e verde, con una decorazione sfumata verso il centro, che rimane trasparente. Tale effetto decorativo è ottenuto tramite una lavorazione artigianale complessa che richiede esperienza e precisione. Il montaggio della lampada è facilitato dalla possibilità di installare i componenti in vetro dopo l'installazione della struttura a soffitto, rendendo anche la manutenzione più semplice.

The Yoko lamp features a frame in matte black metal, supporting a satin glass tube. The decorative element is made of borosilicate glass, available in amber, crystal, smoke, and green finishes, with a gradient decoration towards the center, which remains transparent. This decorative effect is achieved through a complex artisanal process requiring skill and precision. The lamp installation is made easier by the ability to mount the glass components after the ceiling structure is installed, also simplifying maintenance.

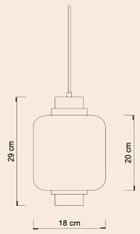

Die Lampe Yoko besteht aus einem Rahmen aus matt-schwarzem Metall, der ein satiniertes Glasrohr hält. Das dekorative Element besteht aus Borosilikatglas, erhältlich in den Farben Amber, Kristall, Rauch und Grün, mit einer Dekoration, die zum Zentrum hin verläuft und transparent bleibt. Dieser dekorative Effekt wird durch eine komplexe Handwerkskunst erzielt, die Erfahrung und Präzision erfordert. Die Installation der Lampe wird erleichtert, da die Glasbestandteile nach der Montage der Struktur an der Decke angebracht werden können, was auch die Wartung vereinfacht.

La lámpara Yoko está compuesta por una estructura de metal pintada en negro mate, que sostiene un tubo de vidrio satinato. El componente decorativo está realizado en vidrio borosilicato, disponible en acabados ámbar, cristal, ahumado y verde, con una decoración difusa hacia el centro, que permanece transparente. Este efecto decorativo se logra mediante un proceso artesanal complejo que requiere experiencia y precisión. El montaje de la lámpara se facilita al poder instalar los componentes de vidrio después de la instalación de la estructura en el techo, lo que también hace más fácil su mantenimiento.

La lampe Yoko se compose d'une structure en métal finition noir mat, qui supporte un tube en verre satiné. Le composant décoratif est fabriqué en verre borosilicaté, disponible en finitions ambre, cristal, fumé et vert, avec une décoration dégradée vers le centre, qui reste transparente. Cet effet décoratif est obtenu grâce à un travail artisanal complexe nécessitant expertise et précision. L'installation de la lampe est facilitée par la possibilité de monter les composants en verre après l'installation de la structure au plafond, ce qui rend également l'entretien plus simple.

Shown in the image: hanging lamp SOSPESI/E27M F on single base BASE/1L N

La lampada a sospensione Sospesi è realizzata in vetro e disponibile in tre diverse misure, con una raffinata forma a goccia ispirata alla pioggia. Il suo design elegante ed evergreen la rende adatta a qualsiasi stile, garantendo versatilità e armonia in ogni ambiente. Perfetta per illuminare spazi residenziali e commerciali, unisce estetica e funzionalità, adattandosi a diverse esigenze con un'illuminazione suggestiva e raffinata.

The Sospesi pendant lamp is made of glass and available in three different sizes, featuring a refined droplet shape inspired by rain. Its elegant and timeless design makes it suitable for any style, ensuring versatility and harmony in any space. Perfect for illuminating residential and commercial environments, it combines aesthetics and functionality, adapting to different needs with a sophisticated and atmospheric lighting effect.

Die Pendelleuchte Sospesi besteht aus Glas und ist in drei verschiedenen Größen erhältlich, mit einer eleganten Tropfenform, die von Regen inspiriert ist. Ihr zeitloses und elegantes Design macht sie für jeden Stil geeignet und sorgt für Vielseitigkeit und Harmonie in jedem Raum. Perfekt für Wohn- und Geschäftsräume, vereint sie Ästhetik und Funktionalität und bietet eine stimmungsvolle und raffinierte Beleuchtung für verschiedene Bedürfnisse.

La lámpara colgante Sospesi está fabricada en vidrio y disponible en tres tamaños diferentes, con una elegante forma de gota inspirada en la lluvia. Su diseño atemporal y sofisticado la hace adecuada para cualquier estilo, garantizando versatilidad y armonía en cualquier espacio. Perfecta para iluminar entornos residenciales y comerciales, adaptándose a diversas necesidades con una iluminación envolvente y refinada.

La suspension Sospesi est fabriquée en verre et disponible en trois tailles différentes, avec une élégante forme de goutte, inspirée de la pluie. Son design intemporel et raffiné la rend adaptée à tous les styles, offrant polyvalence et harmonie dans chaque espace. Parfaite pour éclairer aussi bien les intérieurs résidentiels que commerciaux, elle allie esthétique et fonctionnalité, s'adaptant aux différents besoins avec un éclairage subtil et élégant.

Un best seller: la collezione Sospesi. Disponibile in tre diverse misure, realizzate in vetro borosilicato da abili artigiani e proposte in quattro finiture. Ogni vetro monta una struttura della stessa finitura garantendo un'estetica armoniosa, tale garantisce anche una pratica installazione e manutenzione, in quanto i componenti in vetro possono essere montati dopo la struttura e rimossi facilmente per la pulizia. Le versioni grande e media utilizzano una lampadina E27, nascosta da un cono satinato interno, mentre la misura più piccola è alimentata da una lampadina GU10.

A best seller: the Sospesi collection. Available in three different sizes, made of borosilicate glass by skilled artisans and offered in four finishes. Each glass features a structure with the same finish, ensuring a harmonious aesthetic as well as easy installation and maintenance, since the glass components can be mounted after the structure and easily removed for cleaning. The large and medium versions use an E27 bulb, hidden by an internal satin-finished cone, while the smallest size is powered by a GU10 bulb.

Ein Bestseller: die Kollektion Sospesi. Erhältlich in drei verschiedenen Größen, aus Borosilikatglas von erfahrenen Handwerkern gefertigt und in vier Ausführungen angeboten. Jedes Glas ist mit einer Struktur in derselben Ausführung versehen, was eine harmonische Ästhetik gewährleistet. Zudem ermöglicht dies eine einfache Installation und Wartung, da die Glaskomponenten nach der Montage angebracht und zur Reinigung leicht entfernt werden können. Die großen und mittleren Versionen verwenden eine E27-Glühbirne, verborgen in einem satinierten Innenkegel, während die kleinste Größe mit einer GU10-Glühbirne betrieben wird.

Un best seller: la colección Sospesi. Disponible en tres tamaños, fabricados en vidrio de borosilicato por artesanos y ofrecidos en cuatro acabados. Cada vidrio incorpora una estructura del mismo acabado, garantizando una estética armoniosa, además de una instalación y mantenimiento prácticos, ya que los componentes de vidrio pueden montarse después de la estructura y retirarse fácilmente para su limpieza. Las versiones grande y mediana utilizan una bombilla E27, oculta por un cono satinado interno, mientras que el tamaño pequeño funciona con una bombilla GU10.

SHOWCASE: TAILOR-MADE PROJECT

EVA collection

Sikrea sviluppa soluzioni illuminotecniche su misura, adattandosi a qualsiasi contesto, sia in termini di dimensioni che di complessità.
Grazie a sistemi personalizzati, esalta le caratteristiche architettoniche degli ambienti e risponde con precisione alle esigenze uniche di ogni cliente.

Sikrea develops tailor-made lighting solutions, adapting to any context in terms of both size and complexity.
Thanks to customized systems, it enhances the architectural features of spaces and precisely meets the unique needs of each client.

L'articolo Eva illumina gli spazi con scenari unici, dove luce e design si fondono in un'armonia raffinata. La sua versatilità dà vita a giochi luminosi che esaltano l'architettura e avvolgono l'atmosfera in un'aura di eleganza e innovazione. Grazie alle diverse misure e finiture, si adatta con grazia a ogni ambiente, trasformandolo in un'esperienza luminosa esclusiva.

The Eva piece illuminates spaces with unique scenes where light and design blend in perfect harmony. Its versatility brings to life luminous plays that enhance architecture and envelop the atmosphere in an aura of elegance and innovation. Thanks to its various sizes and finishes, it gracefully adapts to any setting, transforming it into an exclusive lighting experience.

La lampada a sospensione Iconic è caratterizzata da un doppio cono interno per un'illuminazione ottimizzata. Il cono in metallo lucido riflette la luce, migliorandone l'efficienza, mentre il vetro satinato interno nasconde la sorgente luminosa, garantendo una diffusione omogenea. Il vetro esterno, disponibile nelle finiture cristallo, fumé, bronzo e rame, è realizzato e decorato a mano, conferendo unicità a ogni pezzo. Utilizza una lampadina E27 e, grazie alla compatibilità con le nostre basi modulari, consente configurazioni personalizzate per installazioni multiple. Iconic combina artigianalità e tecnologia, offrendo una soluzione decorativa e funzionale per ambienti residenziali e contract.

The Iconic pendant lamp features a double inner cone for optimized lighting. The polished metal cone reflects light, enhancing its efficiency, while the frosted glass inner cone conceals the light source, ensuring uniform diffusion. The outer glass, available in crystal, smoked, bronze, and copper finishes, is handcrafted and hand-decorated, making each piece unique. It uses an E27 bulb and, thanks to compatibility with our modular bases, allows for customized configurations in multiple installations. Iconic combines craftsmanship and technology, offering a decorative and functional solution for both residential and contract spaces.

Die Pendelleuchte Iconic zeichnet sich durch einen doppelten Innenkegel aus, der für eine optimierte Lichtverteilung sorgt. Der hochglänzende Metallkegel reflektiert das Licht und verbessert die Lichtausbeute, während das innere satinierte Glas die Lichtquelle verbirgt und eine gleichmäßige Ausstrahlung gewährleistet. Das äußere Glas, erhältlich in den Ausführungen Kristall, Rauchglas, Bronze und Kupfer, wird handgefertigt und verziert, was jedes Stück einzigartig macht. Die Leuchte nutzt eine E27-Lampe und ermöglicht durch die Kompatibilität mit unseren modularen Baldachinen maßgeschneiderte Mehrfachinstallationen. Iconic vereint handwerkliche Qualität und Technologie und bietet eine dekorative sowie funktionale Lösung für Wohn- und Objektbereiche.

La lámpara de suspensión Iconic se caracteriza por un doble cono interno que optimiza la iluminación. El cono de metal brillante refleja la luz, mejorando su eficiencia, mientras que el vidrio satinado interno oculta la fuente luminosa y garantiza una difusión homogénea. El vidrio exterior, disponible en los acabados cristal, ahumado, bronce y cobre, está hecho y decorado a mano, lo que hace que cada pieza sea única. Utiliza una bombilla E27 y, gracias a la compatibilidad con nuestras bases modulares, permite configuraciones personalizadas para instalaciones múltiples. Iconic combina artesanía y tecnología, ofreciendo una solución decorativa y funcional.

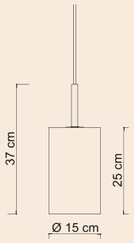

La lampe suspendue Iconic se distingue par un double cône interne optimisant l'éclairage. Le cône en métal brillant réfléchit la lumière pour améliorer son efficacité, tandis que le verre satiné interne dissimule la source lumineuse et assure une diffusion homogène. Le verre extérieur, disponible en finitions cristal, fumé, bronze et cuivre, est fabriqué et décoré à la main, rendant chaque pièce unique. Elle utilise une ampoule E27 et, grâce à la compatibilité avec nos bases modulaires, permet des configurations personnalisées pour des installations multiples. Iconic allie artisanat et technologie pour une solution décorative et fonctionnelle adaptée aux espaces résidentiels et professionnels.

ISIDORA

Shown in the image: hangong lamp ISIDORA/C on single bases BASE/1L C

La sospensione Isidora è un restyling della storica Isotta, progettata con un design più moderno e sinuoso. Realizzata in vetro, la lampada è il frutto di un lavoro altamente artigianale, grazie all'expertise dei maestri vetrai italiani che garantiscono la massima qualità. Il vetro, disponibile nelle finiture bianco, cristallo e ambra, funge da diffusore per la luce emessa da una lampadina E27. La particolare lavorazione del vetro consente una diffusione della luce uniforme e morbida, mentre le diverse finiture offrono soluzioni estetiche versatili, adattabili a vari contesti d'arredo, con un'ottima resa luminosa e un impatto visivo sofisticato.

The Isidora suspension is a restyling of the classic Isotta, designed with a more modern and sinuous shape. Made of glass, the lamp is the result of highly skilled craftsmanship, thanks to the expertise of Italian master glassmakers ensuring the highest quality. The glass, available in white, crystal, and amber finishes, serves as a diffuser for the light emitted by an E27 bulb. The particular glasswork allows for a uniform and soft light diffusion, while the different finishes offer versatile aesthetic solutions, adaptable to various interior styles, with excellent light performance and a sophisticated visual impact.

Die Pendelleuchte Isidora ist eine Neuinterpretation der historischen Isotta mit einem moderneren, geschwungenen Design. Sie ist aus Glas gefertigt und das Ergebnis einer hochgradig handwerklichen Arbeit, die dank der Expertise italienischer Glasbläser von höchster Qualität garantiert wird. Das Glas, erhältlich in den Ausführungen Weiß, Kristall und Amber, fungiert als Diffusor für das Licht einer E27-Glühbirne. Die besondere Glasverarbeitung sorgt für eine gleichmäßige und weiche Lichtverteilung, während die verschiedenen Ausführungen ästhetische, vielseitige Lösungen bieten, die sich in verschiedenen Einrichtungsstilen integrieren lassen, mit hervorragender Lichtausbeute und einer anspruchsvollen visuellen Wirkung.

La suspensión Isidora es una renovación de la histórica Isotta, diseñada con una forma más moderna y sinuosa. Fabricada en vidrio, la lámpara es el resultado de un trabajo altamente artesanal, gracias a la experiencia de los mejores maestros vidrieros italianos que garantizan la máxima calidad. El vidrio, disponible en acabados blanco, cristal y ámbar, actúa como difusor de la luz emitida por una bombilla E27. El proceso particular de trabajo del vidrio permite una difusión uniforme y suave de la luz, mientras que los diferentes acabados ofrecen soluciones estéticas versátiles, adaptables a diversos contextos de decoración, con una excelente iluminación y un impacto visual sofisticado.

La suspension Isidora est une réinterprétation de la célèbre Isotta, conçue avec un design plus moderne et sinueux. Réalisée en verre, la lampe est le résultat d'un travail hautement artisanal, grâce à l'expertise des maîtres verriers italiens qui garantissent la plus haute qualité. Le verre, disponible en finitions blanc, cristal et ambre, sert de diffuseur pour la lumière émise par une ampoule E27. La fabrication particulière du verre permet une diffusion de lumière uniforme et douce, tandis que les différentes finitions offrent des solutions esthétiques polyvalentes, adaptées à divers environnements, avec un excellent rendement lumineux et un impact visuel sophistiqué.

IRIDE

Shown in the image: hanging lamp IRIDE/G in single base BASE/1L N

La lampada Iride è realizzata in vetro borosilicato soffiato, con decorazione iridescente, che richiede una conoscenza approfondita della lavorazione artigianale del vetro. La struttura di supporto è una montatura in finitura cromo, che offre la possibilità di rimuovere il vetro, facilitando installazione e manutenzione. Il cavo, in PVC trasparente, offre un aspetto discreto e funzionale. La lampada è progettata per installazioni singole o in configurazioni multiple, utilizzando le nostre basi componibili, che consentono di combinare anche le diverse misure per ottenere soluzioni personalizzabili.

The Iride lamp is made of blown borosilicate glass with an iridescent decoration, requiring in-depth knowledge of glass craftsmanship. The supporting structure features a chrome-finish frame, which allows for easy removal of the glass, facilitating installation and maintenance. The cable, made of transparent PVC, offers a discreet and functional appearance. The lamp is designed for single or multiple configurations, using our modular bases, which allow for combining different sizes to create customizable solutions.

Die Lampe Iride ist aus geblasenem Borosilikatglas mit irisierender Dekoration gefertigt, was ein tiefes Wissen in der Glasbearbeitung erfordert. Die Stützkonstruktion besteht aus einem Gestell mit Chrom-Finish, das die Möglichkeit bietet, das Glas zu entfernen und so die Installation und Wartung zu erleichtern. Die Lampe ist für Einzelinstallationen oder für mehrfache Konfigurationen konzipiert und nutzt unsere modularen Basen, die auch die Kombination verschiedener Größen ermöglichen, um anpassbare Lösungen zu schaffen.

La lámpara Iride está fabricada en vidrio borosilicato, con decoración iridiscente, lo que requiere un conocimiento profundo del trabajo artesanal del vidrio. La estructura de soporte es una montura en acabado cromado, que permite retirar el vidrio, facilitando la instalación y el mantenimiento. El cable, en PVC transparente, ofrece un aspecto discreto y funcional. La lámpara está diseñada para instalaciones individuales o en configuraciones múltiples, utilizando nuestras bases componibles, que permiten combinar diferentes tamaños para obtener soluciones personalizables.

La lampe Iride est réalisée en verre borosilicate soufflé, avec une décoration iridescente, nécessitant une connaissance approfondie de l'artisanat du verre. La structure de support est une monture en finition chrome, qui permet de retirer le verre, facilitant ainsi l'installation et la maintenance. Le câble, en PVC transparent, offre un aspect discret et fonctionnel. La lampe est conçue pour des installations individuelles ou en configurations multiples, en utilisant nos bases modulables, qui permettent de combiner différentes tailles pour obtenir des solutions personnalisables.

Shown in the image: hanging lamp LIÙ/S1 N with amber accesory SFERA/5 A

Liù è una lampada che unisce eleganza e qualità, con un design sofisticato e ricercato. Disponibile in due raffinate finiture, nero goffrato e ottone spazzolato, si distingue per la cura nei dettagli. Il cavo elettrico, in tessuto intrecciato nero, aggiunge un tocco di stile, mentre il diffusore cilindrico in vetro bianco custodisce una strip LED CCT, offrendo una luce morbida e avvolgente. A renderla ancora più preziosa sono le sfere di vetro, realizzate a mano da esperti maestri vetrai veneziani. Questi dettagli artigianali conferiscono unicità a Liù, trasformandola in un oggetto di design esclusivo, perfetto per arricchire qualsiasi ambiente con raffinatezza.

Liù is a lamp that combines elegance and quality, featuring a sophisticated and refined design. Available in two exquisite finishes—embossed black and brushed brass—it stands out for its meticulous attention to detail. The electric cable, covered in black braided fabric, adds a touch of style, while the cylindrical white glass diffuser houses a CCT LED strip, providing a soft and enveloping light. Making it even more precious are the glass spheres, handcrafted by skilled Venetian glass masters. These artisanal details give Liù a unique character, transforming it into an exclusive design piece, perfect for enhancing any space with sophistication and elegance.

Liù ist eine Lampe, die Eleganz und Qualität vereint und durch ihr anspruchsvolles und raffiniertes Design besticht. Erhältlich in zwei edlen Ausführungen – geprägtes Schwarz und gebürstetes Messing – zeichnet sie sich durch ihre Liebe zum Detail aus. Das Elektrokabel, ummantelt mit schwarzem geflochtenem Stoff, verleiht ihr eine stilvolle Note, während der zylindrische Diffusor aus weißem Glas einen CCT-LED-Streifen beherbergt, der ein sanftes und einhüllendes Licht spendet. Besonders wertvoll wird Liù durch die handgefertigten Glaskugeln, die von erfahrenen venezianischen Glasmachern geschaffen wurden. Diese kunstvollen Details verleihen Liù eine einzigartige Note und machen sie zu einem exklusiven Designobjekt, das jeden Raum mit Raffinesse bereichert.

Liù es una lámpara que combina elegancia y calidad, con un diseño sofisticado y refinado. Disponible en dos acabados elegantes—negro gofrado y latón cepillado—destaca por su atención al detalle. El cable, cubierto con tejido trenzado negro, añade un toque de estilo, mientras que el difusor cilíndrico de vidrio blanco alberga una tira LED CCT, proporcionando una luz suave y envolvente. Aún más especial, las esferas de vidrio, elaboradas a mano por expertos maestros vidrieros venecianos, aportan un carácter único. Estos detalles artesanales hacen de Liù una pieza de diseño exclusiva, perfecta para embellecer cualquier espacio con sofisticación y elegancia.

Liù est une lampe qui allie élégance et qualité, avec un design sophistiqué et raffiné. Disponible en deux finitions élégantes – noir gaufré et laiton brossé – elle se distingue par son souci du détail. Le câble électrique, recouvert de tissu tressé noir, ajoute une touche de style, tandis que le diffuseur cylindrique en verre blanc abrite une bande LED CCT, offrant une lumière douce et enveloppante. Rendant Liù encore plus précieuse, les sphères en verre sont fabriquées à la main par des maîtres verriers vénitiens expérimentés. Ces détails artisanaux confèrent à Liù une singularité qui en fait un objet de design exclusif, parfait pour sublimer tout espace avec élégance et raffinement.

LYRA

Shown in the image: hanging lamp LYRA/F and LYRA/A con recessed bases BASE/1INC N

Shown in the image: hanging lamp LYRA/C on single base BASE/1L N and on wall lamp base APPLIQUE/N

La collezione Lyra, proposta in versioni a sospensione, faretto esterno e incasso, offre un design lineare e duraturo. Il diffusore in vetro ottimizza la diffusione luminosa e protegge la sorgente G9, garantendo efficienza e facilità di sostituzione. Struttura e finiture ad alte prestazioni assicurano resistenza nel tempo, adattandosi perfettamente ad ambienti contemporanei e classici con estetica essenziale e notevole versatilità.

The Lyra collection, available in suspended, external spotlight, and recessed versions, offers a clean, enduring design. The glass diffuser optimizes light distribution and protects the G9 light source, ensuring efficiency and easy replacement. High-performance structure and finishes guarantee lasting durability, seamlessly adapting to both contemporary and classic environments with a minimal aesthetic and notable versatility.

Die Kollektion Lyra, als Pendelleuchte, und Einbauleuchte, zeichnet sich durch ein langlebiges Design aus. Der Glasdiffusor optimiert die Lichtverteilung und schützt die G9-Lichtquelle. Die robuste Struktur und hochwertige Oberflächen sorgen für dauerhafte Beständigkeit und passen sich mit einer schlichten Ästhetik und bemerkenswerter Vielseitigkeit perfekt an moderne wie klassische Umgebungen an.

La colección Lyra, disponible en versiones de suspensión, foco exterior y empotrado, ofrece un diseño lineal y duradero. El difusor de vidrio optimiza la difusión luminosa y protege la fuente G9, garantizando eficiencia y facilidad de reemplazo. Su estructura y acabados de alto rendimiento aseguran resistencia a lo largo del tiempo, adaptándose perfectamente a ambientes contemporáneos y clásicos, con una estética esencial y gran versatilidad.

La collection Lyra, en versions suspension, spot extérieur et encastré, offre un design. Le diffuseur en verre optimise la diffusion de la lumière et protège la source G9, garantissant efficacité et facilité de remplacement. La structure et les finitions haute performance assurent une résistance dans le temps, s'adaptant aux environnements contemporains et classiques, grâce à une esthétique essentielle et une grande polyvalence.

La lampada a sospensione Mirò si distingue per il suo design minimal ed elegante, con finiture disponibili in nero goffrato, rame spazzolato e ottone spazzolato, impreziosite da un diffusore in vetro cristallo e un cavo in tessuto nero. La sorgente luminosa è una lampadina GX53, facilmente sostituibile, che garantisce praticità ed efficienza. Grazie alla sua versatilità, Mirò può essere installata singolarmente, in composizione sulle nostre basi o a parete, offrendo soluzioni luminose personalizzabili.

The Mirò pendant lamp stands out for its minimal and elegant design, available in embossed black, brushed copper, and brushed brass finishes. It is enhanced by a crystal glass diffuser and a black fabric cable, ensuring durability and a premium look. The light source is a GX53 bulb, which is easily replaceable, offering convenience, efficiency, and long-lasting performance. Thanks to its versatility, Mirò can be installed individually, in a composition on our bases, or mounted on the wall, offering customizable and sophisticated lighting solutions.

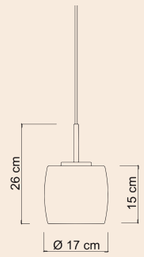

Die Mirò-Pendelleuchte zeichnet sich durch ihr minimalistisches und elegantes Design aus und ist in den Oberflächen Schwarz geprägt, gebürstetes Kupfer und gebürstetes Messing erhältlich. Sie wird durch einen Kristallglas-Diffusor und ein schwarzes Stoffkabel veredelt, das für Langlebigkeit und eine hochwertige Optik sorgt. Die Lichtquelle ist eine GX53-Lampe, die leicht austauschbar ist und Komfort, Effizienz und eine lange Lebensdauer bietet. Dank ihrer Vielseitigkeit kann Mirò einzeln, in einer Komposition auf unseren Basen oder als Wandleuchte installiert werden und bietet maßgeschneiderte und stilvolle Beleuchtungslösungen.

La lámpara de suspensión Mirò se distingue por su diseño minimalista y elegante, con acabados disponibles en negro gofrado, cobre cepillado y latón cepillado, realzados por un difusor de vidrio cristal y un cable de tela negro. La fuente de luz es una bombilla GX53, fácilmente reemplazable, que garantiza practicidad y eficiencia. Gracias a su versatilidad, Mirò puede instalarse individualmente, en composición sobre nuestras bases o en la pared, ofreciendo soluciones de iluminación personalizables.

La suspension Mirò se distingue par son design minimal et élégant, avec des finitions disponibles en noir gaufré, cuivre brossé et laiton brossé, sublimées par un diffuseur en verre cristal et un câble en tissu noir. La source lumineuse est une ampoule GX53, facilement remplaçable, garantissant praticité et efficacité. HI!

Shown in the image: table lamp HI/BR and HI/F

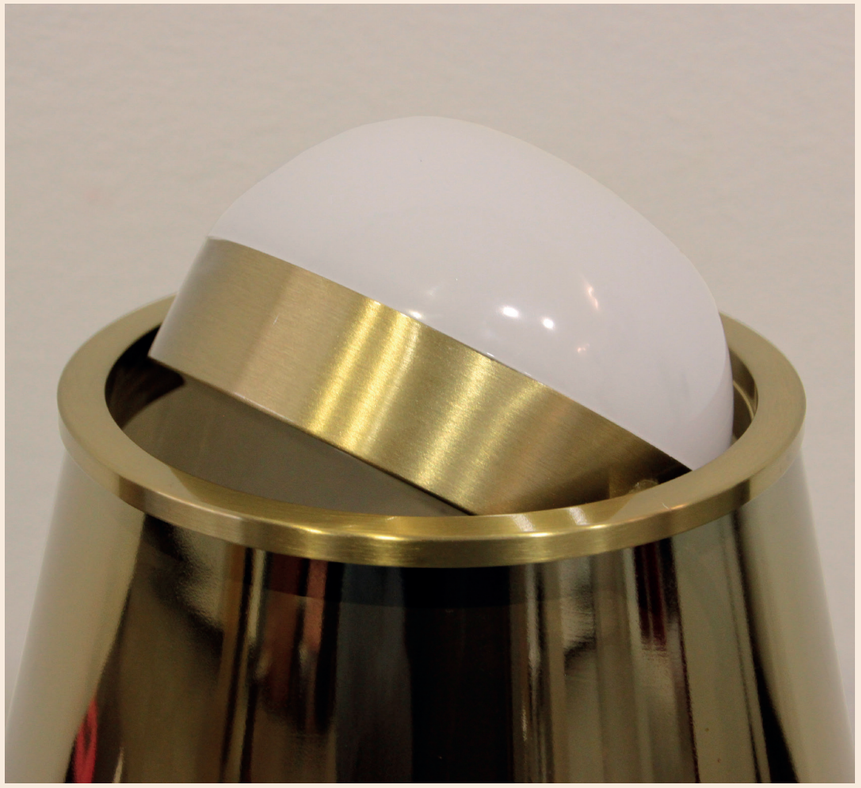

La lampada da tavolo HI! presenta una struttura in vetro con diffusore orientabile in acrilico satinato a forma di cupola, progettato per modulare con precisione la direzione del fascio luminoso. L'illuminazione è affidata a una lampadina GX53, garantendo un'emissione efficiente, uniforme e priva di abbagliamento. Il design bilancia estetica e funzionalità, rendendola ideale per diverse applicazioni luminose e contesti d'uso. È disponibile in due eleganti finiture, fumé e bronzo, per integrarsi armoniosamente in ambienti sia moderni che classici.

The HI! table lamp features a glass structure with an adjustable satin acrylic dome-shaped diffuser, designed to precisely direct the light beam. The lighting is provided by a GX53 bulb, ensuring efficient, uniform, and glare-free illumination. The design balances aesthetics and functionality, making it ideal for various lighting applications and usage contexts. It is available in two elegant finishes, smoked and bronze, allowing seamless integration into both modern and classic interiors.

Die HI! Tischlampe verfügt über eine Glasstruktur mit einem schwenkbaren Diffusor aus satiniertem Acryl in Kuppelform, der präzise die Lichtstrahlrichtung moduliert. Die Beleuchtung erfolgt durch eine GX53-Lampe, die eine effiziente, gleichmäßige und blendfreie Lichtverteilung gewährleistet. Das Design vereint Ästhetik und Funktionalität und eignet sich für verschiedene Beleuchtungsanwendungen und Nutzungskontexte. Sie ist in zwei eleganten Ausführungen erhältlich, Rauchglas und Bronze, und fügt sich harmonisch in moderne sowie klassische Räume ein.

La lámpara de mesa HI! presenta una estructura de vidrio con un difusor orientable de acrílico satinado en forma de cúpula, diseñado para modular con precisión la dirección del haz luminoso. La iluminación está a cargo de una bombilla GX53, garantizando una emisión eficiente, uniforme y libre de deslumbramiento. Su diseño equilibra estética y funcionalidad, haciéndola ideal para diversas aplicaciones de iluminación y contextos de uso. Está disponible en dos acabados, ahumado y bronce, para integrarse armoniosamente en ambientes tanto modernos como clásicos.

La lampe de table HI! présente une structure en verre avec un diffuseur orientable en acrylique satiné en forme de coupole, conçu pour moduler avec précision la direction du faisceau lumineux. L'éclairage est assuré par une ampoule GX53, garantissant une émission efficace, uniforme et sans éblouissement. TOY

Shown in the image: hanging lamp TOY/S1 F

Shown in the image: composition of 3 lights TOY/CO A on multiple base BASE/3L N LED

La lampada Toy, disponibile sia in versione sospensione che da parete, si adatta facilmente a qualsiasi ambiente grazie al suo design minimal ma d'impatto. L'elemento distintivo è l'inserto in vetro decorato, disponibile in diverse finiture, che aggiunge un tocco di eleganza e personalità. Versatile e raffinata, Toy offre un'illuminazione sofisticata, perfetta per contesti residenziali e commerciali, unendo estetica e funzionalità in modo armonioso.

The Toy lamp, available in both pendant and wall-mounted versions, easily adapts to any environment thanks to its minimal yet striking design. Its distinctive feature is the decorative glass insert, available in various finishes, adding a touch of elegance and personality. Versatile and refined, Toy provides sophisticated lighting, perfect for residential and commercial spaces, seamlessly combining aesthetics and functionality.

Die Toy-Lampe, als Hängeleuchte und Wandleuchte erhältlich, passt sich dank ihres minimalistischen, aber wirkungsvollen Designs jeder Umgebung an. Das markante Element ist der dekorative Glaseinsatz, in verschiedenen Ausführungen erhältlich, der Eleganz und Individualität verleiht. Vielseitig und stilvoll bietet Toy eine raffinierte Beleuchtung, perfekt für Wohn- und Geschäftsräume, die Ästhetik und Funktionalität harmonisch vereint.

La lámpara Toy, disponible como suspensión y aplique de pared, se adapta fácilmente a cualquier espacio gracias a su diseño minimalista pero impactante. Su elemento distintivo es el inserto de vidrio decorativo, disponible en varias terminaciones, que aporta elegancia y personalidad. Versátil y sofisticada, Toy ofrece una iluminación refinada, perfecta para entornos residenciales y comerciales, combinando estética y funcionalidad.

La lampe Toy, disponible en version suspension et applique murale, s'adapte facilement à tout environnement grâce à son design minimaliste mais percutant. Son élément distinctif est l'insert en verre décoratif, proposé en plusieurs finitions, qui apporte élégance et personnalité. Polyvalente et raffinée, Toy offre un éclairage sophistiqué, idéal pour les espaces résidentiels et commerciaux, alliant harmonieusement esthétique et fonctionnalité.

Shown in the image: wall lamp TOY/A P

TOY

Shown in the image: composition of 3 lights TOY/CO C on multiple base BASE/3L N LED with offset installation

La lampada Toy è composta da una struttura in metallo a forma semicircolare, equipaggiata con due strip LED ad alta efficienza, che garantiscono un'illuminazione uniforme e potente. All'interno del semicerchio è presente un inserto in vetro decorativo, disponibile nelle finiture ambra, fumé, petrolio e cristallo, per un'ampia personalizzazione estetica. Toy è progettata per diverse installazioni: disponibile come lampada da parete, sospensione singola oppure senza base, ideale per configurazioni modulari con le nostre basi LED.

The Toy lamp features a semicircular metal structure, equipped with two high-efficiency LED strips, ensuring uniform and powerful illumination. Inside the semicircle, there is a decorative glass insert, available in amber, smoked, petrol, and crystal finishes, allowing for extensive aesthetic customization. Toy is designed for multiple installations: available as a wall lamp, single pendant, or without a base, making it ideal for modular configurations with our LED bases.

Die Toy-Lampe besteht aus einer halbkreisförmigen Metallstruktur, ausgestattet mit zwei hocheffizienten LED-Streifen, die eine gleichmäßige und leistungsstarke Beleuchtung gewährleisten. Im Inneren des Halbkreises befindet sich ein dekoratives Glaselement, das in den Ausführungen Bernstein, Rauchgrau, Petrol und Kristall erhältlich ist und eine breite ästhetische Anpassung ermöglicht. Toy ist für verschiedene Installationen konzipiert: erhältlich als Wandleuchte, einzeln hängende Pendelleuchte oder ohne Basis, ideal für modulare Konfigurationen mit unseren LED-Basen.

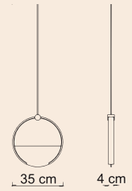

La lámpara Toy está compuesta por una estructura metálica en forma semicircular, equipada con dos tiras LED de alta eficiencia, que garantizan una iluminación uniforme y potente. En el interior del semicírculo se encuentra un inserto de vidrio decorativo, disponible en los acabados ámbar, ahumado, petróleo y cristal, permitiendo una amplia personalización estética. Toy está diseñada para diversas instalaciones: disponible como aplique de pared, suspensión individual o sin base, ideal para configuraciones modulares con nuestras bases LED.

La lampe Toy est composée d'une structure en métal en forme de demi-cercle, équipée de deux bandes LED haute efficacité, garantissant un éclairage uniforme et puissant. À l'intérieur du demi-cercle se trouve un insert en verre décoratif, disponible en finitions ambre, fumé, pétrole et cristal, offrant une large personnalisation esthétique. Toy est conçue pour différentes installations : disponible en applique murale, en suspension individuelle ou sans base, idéale pour des configurations modulaires avec nos bases LED.

LIAM

Shown in the image: hanging lamp LIAM/S1 OS

La lampada a sospensione Liam è disponibile in versione singola o senza base, permettendo l'integrazione con basi componibili per configurazioni personalizzate. L'illuminazione è garantita da una strip LED integrata lungo l'anello, assicurando un'emissione luminosa uniforme ed efficiente. La montatura è realizzata in ottone spazzolato o nero opaco, offrendo resistenza e un'estetica raffinata. Il cavo in tessuto nero testimonia qualità costruttiva. Liam si adatta a diverse esigenze illuminotecniche e contesti architettonici.

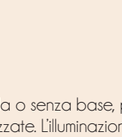

The Liam pendant lamp is available as a single unit or without a base, allowing integration with modular bases for customized configurations. Illumination is provided by an integrated LED strip along the ring, ensuring uniform and efficient light distribution. The frame is made of brushed brass or matte black, offering durability and a refined aesthetic. The black fabric cable enhances the construction quality. Liam adapts to various lighting needs and architectural contexts.

Die Hängeleuchte Liam ist als einzelne Version oder ohne Basis erhältlich und kann mit modularen Basen kombiniert werden. Die integrierte LED entlang des Rings sorgt für gleichmäßige und effiziente Beleuchtung. Die Montur besteht aus gebürstetem Messing oder mattschwarzem Finish und bietet hohe Widerstandsfähigkeit. Das schwarze Textilkabel unterstreicht die hochwertige Verarbeitung. Dank ihrer Design passt sich Liam verschiedenen Beleuchtungsanforderungen.

La lámpara colgante Liam está disponible en versión individual o sin base, permitiendo la integración con bases modulares. La iluminación proviene de una tira LED integrada en el anillo, asegurando una emisión uniforme y eficiente. La estructura está hecha de latón cepillado o negro mate, combinando resistencia y estética. El cable de tela negra aporta calidad. Liam se adapta a diversas necesidades y espacios arquitectónicos.

La suspension Liam est disponible en version simple ou sans base, permettant l'intégration avec des bases modulables. L'éclairage est assuré par une strip LED intégrée à l'anneau, garantissant une diffusion homogène et efficace. La monture est en laiton brossé ou noir mat, combinant résistance et élégance. Le câble en tissu noir souligne la qualité. Liam s'adapte à diverses exigences lumineuses et environnements architecturaux.

La lampada a sospensione Miley è un gioiello di design che unisce eleganza e modernità. Il suo anello prezioso, disponibile nelle raffinate finiture nero e platino, conferisce un tocco di esclusività a qualsiasi ambiente. A esaltare ulteriormente la sua bellezza è il sofisticato diffusore della luce, realizzato in acrilico lavorato, che crea suggestivi giochi luminosi. La luce, emessa da una strip LED, avvolge lo spazio con un'illuminazione morbida e uniforme, perfetta per ambienti contemporanei e ricercati. Miley è più di una lampada: è un elemento d'arredo raffinato e scenografico.

The Miley pendant lamp is a design jewel that combines elegance and modernity. Its precious ring, available in refined black and platinum finishes, adds a touch of exclusivity to any space. Enhancing its beauty even further is the sophisticated light diffuser, made of crafted acrylic, which creates fascinating light effects. The light, emitted by an integrated LED strip, envelops the space with a soft and uniform glow, perfect for contemporary and refined interiors. Miley is more than just a lamp: it is a sophisticated and striking piece of decor.

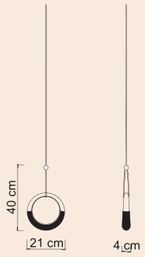

Die Leuchte Miley ist ein Design-Juwel, das Eleganz und Modernität vereint. Ihr edler Ring, erhältlich in den raffinierten Ausführungen Schwarz und Platin, verleiht jedem Raum eine exklusive Note. Die Schönheit der Leuchte wird durch den aufwendig gearbeiteten Lichtdiffusor aus Acryl zusätzlich betont, der faszinierende Lichtspiele erzeugt. Das von einem LED-Streifen ausgestrahlte Licht hüllt den Raum in eine sanfte und gleichmäßige Beleuchtung – perfekt für moderne und anspruchsvolle Umgebungen. Miley ist mehr als eine Lampe: Sie ist ein stilvolles und eindrucksvolles Einrichtungselement.

La lámpara Miley es una joya de diseño que combina elegancia y modernidad. Su precioso anillo, disponible en los sofisticados acabados negro y platino, aporta un toque de exclusividad a cualquier ambiente. Para realzar aún más su belleza, cuenta con un sofisticado difusor de luz, elaborado en acrílico trabajado, que crea sugerentes juegos luminosos. La luz, emitida por una tira LED, envuelve el espacio con una iluminación suave y uniforme, perfecta para entornos contemporáneos y elegantes. Miley es más que una lámpara: es un elemento decorativo escenográfico.

La suspension Miley est un bijou de design qui allie élégance et modernité. Son anneau précieux, disponible dans les finitions raffinées noir et platine, apporte une touche d'exclusivité à tout espace. Son éclat est encore sublimé par le diffuseur sophistiqué, en acrylique travaillé, qui crée de magnifiques jeux de lumière. La lumière, émise par un ruban LED, enveloppe l'espace d'un éclairage doux et homogène, idéal pour les intérieurs contemporains et élégants. Miley est bien plus qu'une simple lampe : c'est un élément décoratif raffiné et spectaculaire.

La collezione Nemo offre versatilità e design raffinato, disponibile sia in versione a sospensione con cavo, sia con basetta installabile a soffitto o parete. Il punto di forza è l'orientabilità, che consente di dirigere con precisione la luce in base alle esigenze specifiche. L'illuminazione è garantita da una lampadina GU10, facilmente intercambiabile. Disponibile in cinque finiture moderne.

The Nemo collection offers versatility and refined design, available in both a suspended cable version and a base version that can be installed on the ceiling or wall. Its key feature is adjustability, allowing precise light direction according to specific needs. Illumination is provided by an easily replaceable GU10 bulb. Available in five modern finishes.

Die Kollektion Nemo bietet Vielseitigkeit und ein raffiniertes Design. Sie ist sowohl als Hängeleuchte mit Kabel als auch mit einer Basis erhältlich, die an der Decke oder Wand montiert werden kann. Ihr Hauptmerkmal ist die Ausrichtbarkeit, die eine präzise Lichtlenkung nach individuellen Bedürfnissen ermöglicht. Die Beleuchtung erfolgt durch eine GU10-Lampe, die leicht ausgetauscht werden kann. Erhältlich in fünf Ausführungen.

La colección Nemo ofrece versatilidad y un diseño refinado, disponible tanto en versión suspendida con cable como con base instalable en techo o pared. Su principal característica es la orientación ajustable, que permite dirigir con precisión la luz según las necesidades específicas. La iluminación está garantizada por una bombilla GU10, fácilmente intercambiable. Disponible en cinco acabados.

La collection Nemo offre polyvalence et design raffiné, disponible en version suspendue avec câble ou avec une base installable au plafond ou au mur. Son principal atout est son orientation, permettant de diriger avec précision la lumière selon les besoins spécifiques. L'éclairage est assuré par une ampoule GU10, facilement interchangeable. Disponible en cinq finitions modernes.

NOA

Shown in the image: hanging lamp NOA/S

La collezione Noa si distingue per il suo design semplice ma d'impatto, caratterizzato da due anelli incrociati: uno luminoso e l'altro decorativo in ottone spazzolato. L'equilibrio tra luce e materia crea un effetto elegante e moderno, perfetto per ambienti contemporanei. Grazie alla sua estetica raffinata, Noa diventa un elemento decorativo e funzionale, donando un'illuminazione sofisticata e armoniosa.

The Noa collection stands out for its simple yet impactful design, featuring two intersecting rings: one illuminated and the other decorative in brushed brass. The balance between light and material creates an elegant and modern effect, perfect for contemporary spaces. With its refined aesthetics, Noa becomes both a decorative and functional element, providing a sophisticated and harmonious lighting solution.

Die Kollektion Noa zeichnet sich durch ihr wirkungsvolles Design mit zwei überkreuzten Ringen aus: einer leuchtet, der andere ist aus gebürstetem Messing. Das Gleichgewicht zwischen Licht und Material erzeugt eine elegante, moderne Wirkung, ideal für zeitgenössische Räume. Dank ihrer raffinierten Ästhetik wird Noa zu einem dekorativen und funktionalen Element und sorgt für eine anspruchsvolle Beleuchtung.

La colección Noa se distingue por su diseño sencillo pero impactante, caracterizado por dos anillos entrecruzados: uno luminoso y el otro decorativo en latón cepillado. El equilibrio entre luz y materia crea un efecto elegante y moderno, perfecto para ambientes contemporáneos. Gracias a su estética refinada, Noa se convierte en un elemento decorativo y funcional, proporcionando una iluminación sofisticada y armoniosa.

La collection Noa se distingue par son design simple mais percutant, caractérisé par deux anneaux entrecroisés : l'un lumineux et l'autre décoratif en laiton brossé. L'équilibre entre la lumière et la matière crée un effet élégant et moderne, idéal pour les intérieurs contemporains. Grâce à son esthétique raffinée, Noa devient un élément décoratif et fonctionnel, offrant un éclairage sophistiqué et harmonieux.

Shown in the image: ceiling lamp NOA/PL and table lamp NOA/L

Shown in the image: wall lamp NOA/A

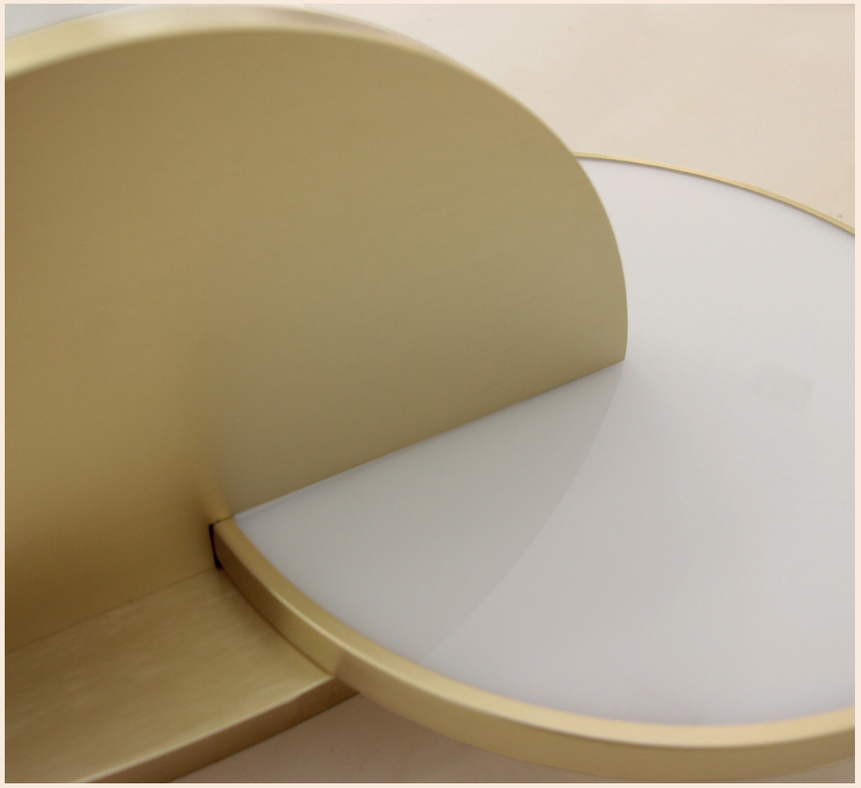

La collezione Noa comprende lampade a sospensione, da soffitto, da parete e da tavolo, caratterizzate da un sofisticato incastro tra due dischi in metallo. Uno si illumina grazie a strip LED integrate e a un diffusore in acrilico, garantendo un'illuminazione uniforme. Il secondo, in metallo con finitura ottone spazzolato, aggiunge eleganza e raffinatezza. Grazie alla sua alta resa luminosa e visiva, Noa unisce funzionalità ed estetica, adattandosi perfettamente ad ambienti moderni e ricercati, con un design minimalista ma di forte impatto.

The Noa collection includes suspension, ceiling, wall, and table lamps, featuring a sophisticated interlocking system between two metal discs. One lights up thanks to integrated LED strips and an acrylic diffuser, ensuring uniform illumination. The second, in brushed brass-finished metal, adds elegance and refinement. With its high luminous and visual performance, Noa combines functionality and aesthetics, fitting perfectly into modern and sophisticated spaces, with a minimalist yet striking design.

Die Kollektion Noa umfasst Pendelleuchten, Decken-, Wand- und Tischlampen, die durch eine raffinierte Verbindung von zwei Metallringen charakterisiert sind. Einer leuchtet dank integrierter LED-Strips und einem Acryl-Diffusor, der für eine gleichmäßige Beleuchtung sorgt. Der zweite, aus gebürstetem Messing, verleiht Eleganz und Raffinesse. Mit ihrer hohen Licht- und visuellen Leistung vereint Noa Funktionalität und Ästhetik und passt perfekt in moderne und anspruchsvolle Räume, mit einem minimalistischen, aber eindrucksvollen Design.

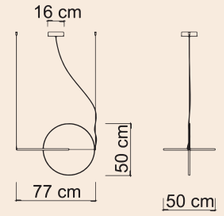

La colección Noa incluye lámparas de suspensión, techo, pared y mesa, caracterizadas por un sofisticado encaje entre dos discos de metal. Uno se ilumina gracias a tiras LED integradas y a un difusor de acrilico, garantizando una iluminación uniforme. El segundo, en metal con acabado de latón cepillado, añade elegancia y refinamiento. Gracias a su alta eficiencia luminosa y visual, Noa combina funcionalidad y estética, adaptándose perfectamente a espacios modernos y sofisticados, con un diseño minimalista pero de gran impacto.

La collection Noa comprend des lampes suspendues, de plafond, murales et de table, caractérisées par un élégant assemblage de deux disques en métal. L'un s'illumine grâce à des LED intégrées et un diffuseur en acrylique, garantissant une lumière uniforme. Le second, en métal avec finition laiton brossé, ajoute élégance et raffinement. Avec sa grande efficacité lumineuse et visuelle, Noa allie fonctionnalité et esthétique, s'adaptant parfaitement aux intérieurs modernes et sophistiqués, avec un design minimaliste mais percutant.

Ninfea è una lampada da parete dal design innovativo, caratterizzata da precisi tagli di luce che generano effetti luminosi dinamici. Dotata di strip LED CCT con temperatura colore regolabile, assicura emissione luminosa uniforme grazie alla cover diffusore in silicone. La particolare struttura favorisce scenografici giochi di luce, integrandosi efficacemente in contesti tecnici e decorativi.

Ninfea is an innovative wall lamp featuring light cuts that create dynamic lighting effects. Equipped with a CCT LED strip allowing adjustable color temperature, it ensures uniform light diffusion through its silicone diffuser cover. Its distinctive structure creates striking lighting effects, fitting seamlessly into both technical and decorative settings.

Ninfea ist eine innovative Wandleuchte mit gezielten Lichtausschnitten für dynamische Lichteffekte. Der CCT-LED-Strip ermöglicht eine gleichmäßige Lichtverteilung dank Silikon-Abdeckung.
Ihre Struktur erzeugt wirkungsvolle Lichtspiele und eignet sich ideal für technische sowie dekorative Anwendungen.

Ninfea es una lámpara de pared caracterizada por cortes precisos que generan dinámicos efectos luminosos. Equipada con tira LED CCT de temperatura de color ajustable, garantiza una emisión luminosa uniforme gracias a su difusor de silicona. Su estructura especial permite crear atractivos juegos de luz, adaptándose perfectamente a contextos técnicos y decorativos.

Ninfea est une applique murale au design innovant, caractérisée par des découpes lumineuses précises créant des effets dynamiques. La lampada da parete Flat, dal ridottissimo spessore e sagoma simile a una mensola, integra una sorgente LED CCT ad alta efficienza. Proietta luce diretta/indiretta sulla parete, creando un raffinato effetto di illuminazione. Ideale per soluzioni architetturali moderne e funzionali.

The Flat wall lamp, featuring an extremely thin profile reminiscent of a shelf, integrates a highly efficient LED CCT light source. It projects direct/indirect light onto the wall, creating a refined lighting effect. Ideal for modern, functional architectural solutions.

Die Wandleuchte Flat verfügt über eine äußerst geringe Bauhöhe und eine nahezu regalähnliche Form. Sie ist mit einer hocheffizienten LED-CCT-Lichtquelle ausgestattet und projiziert direktes/indirektes Licht an die Wand, wodurch ein dezenter, aber eleganter Beleuchtungseffekt entsteht. Ideal für moderne, funktionale Architekturkonzepte.

La lámpara de pared Flat, con un espesor mínimo y una forma parecida a una repisa, integra una fuente LED CCT de alta eficiencia. Proyecta luz directa e indirecta sobre la pared, creando un refinado efecto de iluminación. Ideal para soluciones arquitectónicas modernas y funcionales.

La lampe murale Flat, d'une épaisseur extrêmement réduite et d'une forme semblable à une étagère, intègre une source LED CCT à haute efficacité. Elle projette une lumière directe/indirecte sur le mur, créant un effet d'éclairage raffiné. Idéale pour des solutions architecturales modernes et fonctionnelles.

La lampada sospensione Layla si distingue per il suo elegante diffusore circolare in acrilico, che garantisce un'illuminazione morbida e uniforme. La montatura in ottone spazzolato aggiunge un tocco di raffinatezza, mentre il cavo in tessuto nero completa il design moderno e minimalista. Perfetta per ambienti contemporanei, Layla unisce funzionalità e stile, offrendo un'illuminazione di alta qualità con un'estetica distintiva e sofisticata.

The Layla pendant lamp is distinguished by its elegant circular acrylic diffuser, providing soft and even lighting. The brushed brass frame adds a touch of sophistication, while the black fabric cable completes the modern and minimalist design. Perfect for contemporary spaces, Layla combines functionality and style, offering high-quality illumination with a distinctive and sophisticated aesthetic.

Die Pendelleuchte Layla zeichnet sich durch ihren eleganten, kreisförmigen Acryl-Diffusor aus, der für eine gleichmäßige Beleuchtung sorgt.
Der Lampenkörper in gebürstetem Messing verleiht Raffinesse, während das schwarze Stoffkabel das Design abrundet. Perfekt für moderne Räume, vereint Layla Funktionalität und Stil mit hochwertiger Beleuchtung und eleganter Ästhetik.

La lámpara de suspensión Layla se distingue por su difusor circular de acrílico, que garantiza una iluminación suave y uniforme. La estructura en acabado de latón cepillado añade un toque de sofisticación, mientras que el cable de tela negra completa el diseño moderno y minimalista. Perfecta para ambientes contemporáneos, Layla combina funcionalidad y estilo.

La suspension Layla se distingue par son élégant diffuseur circulaire en acrylique, qui assure un éclairage doux et uniforme. La monture en laiton brossé ajoute une touche de raffinement, tandis que le câble en tissu noir complète le design moderne et minimaliste. Parfaite pour des environnements contemporains, Layla allie fonctionnalité et style, offrant un éclairage de haute qualité avec une esthétique distinctive et sophistiquée.

Shown in the image: composition of 5 lights LAYLA/CO with multiple light base BASE/5L OS LED

La lampada Layla è disponibile come sospensione singola o senza base per l'abbinamento a basi componibili fino a 13 luci, permettendo di creare configurazioni personalizzate in base a esigenze estetiche e funzionali. La sorgente luminosa è una strip LED integrata, con un diffusore in acrilico satinato che assicura un'illuminazione uniforme e senza abbagliamento. La montatura è realizzata in ottone spazzolato, mentre il cavo è rivestito in tessuto nero per un tocco elegante e moderno. Layla si distingue per adattarsi a spazi contemporanei, con un design minimalista.

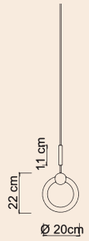

The Layla lamp is designed to offer versatility, available as a single pendant or without a base to be paired with modular bases up to 13 lights, allowing for customizable configurations based on aesthetic and functional needs. The light source is an integrated LED strip, with a satin-finished acrylic diffuser that ensures uniform and glare-free illumination. The frame is made of brushed brass, while the cable is covered in black fabric for an elegant and modern touch. Layla stands out for its ability to adapt to contemporary spaces with a minimalist design.

Die Lampe Layla bietet Vielseitigkeit und ist als einzelne Pendelleuchte oder ohne Basis erhältlich, um mit unseren modularen Basen bis zu 13 Leuchten zu kombinieren, wodurch individuelle Konfigurationen erstellt werden können. Die Lichtquelle ist ein LED-Band mit satiniertem Acryl-Diffusor, der gleichmäßige und blendfreie Beleuchtung gewährleistet. Der Rahmen ist aus gebürstetem Messing, das Kabel in schwarzem Stoff für einen modernen Akzent. Layla passt sich perfekt an zeitgenössische Räume an und überzeugt mit minimalistischen Design.

La lámpara Layla está diseñada para ofrecer versatilidad, disponible como suspensión individual o sin base para combinarla con bases componibles de hasta 13 luces, permitiendo configuraciones personalizadas según necesidades estéticas y funcionales. La fuente luminosa es una tira LED integrada, con difusor de acrílico satinado. La estructura está en latón cepillado, con cable de tela negra para un toque moderno. Layla se adapta a espacios contemporáneos con diseño minimalista.

La lampe Layla est conçue pour offrir polyvalence, disponible en suspension simple ou sans base pour être associée à des bases modulables jusqu'à 13 lumières, permettant des configurations personnalisées selon les besoins esthétiques et fonctionnels. La source lumineuse est une bande LED intégrée, avec un diffuseur en acrylique satiné assurant un éclairage uniforme. La monture est en laiton brossé, et le câble en tissu noir ajoute une touche moderne. Layla se distingue par sa capacité à s'adapter aux espaces contemporains, avec un design minimaliste.

Shown in the image: composition of LUXOR/V, LUXOR/T and LUXOR/G on multiple base BASE/3L N

Shown in the image: hanging lamp LUXOR/T on single base BASE/1L N

La lampada a sospensione Luxor è un'opera di maestria artigianale, realizzata da esperti vetrai. La sua forma distintiva unisce armoniosamente design moderno e classico, rendendola un elemento d'arredo versatile. Disponibile nelle finiture bianco, grigio, verde salvia e tortora, si abbina a diversi stili di interni. La montatura in ottone spazzolato conferisce eleganza, mentre il cavo in tessuto nero aggiunge un tocco raffinato. La fonte luminosa è una lampadina E27 a vista, che esalta la colorazione del vetro. Installabile singolarmente o in composizioni, Luxor offre più possibilità.

The Luxor pendant lamp is a masterpiece of craftsmanship, created by skilled glassmakers. Its distinctive shape harmoniously blends modern and classic design, making it a versatile furnishing element. Available in white, gray, sage green, and dove gray finishes, it complements various interior styles. The brushed brass frame adds elegance, while the black fabric cable provides a refined touch. The light source is an exposed E27 bulb, enhancing the glass's coloration. Installable individually or in modular compositions, Luxor offers endless possibilities.

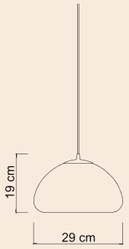

Die Hängeleuchte Luxor ist ein handwerkliches Meisterwerk, gefertigt von Glasbläsern. Ihre Form vereint modernes und klassisches Design, wodurch sie vielseitig einsetzbar ist. Erhältlich in verschiedenen Ausführungen, passt sie zu unterschiedlichen Stilrichtungen. Die Messinghalterung verleiht Eleganz, während das Stoffkabel für Raffinesse sorgt. Die Lichtquelle ist eine sichtbare E27-Glühbirne, die das Glas besonders zur Geltung bringt. Luxor kann einzeln oder in modularen Kompositionen installiert werden und bietet zahlreiche Möglichkeiten.

La lámpara colgante Luxor es una obra de maestría artesanal, realizada por vidrieros. Su forma combina diseño moderno y clásico, convirtiéndola en un elemento decorativo versátil. Disponible en acabados blanco, gris, verde salvia y topo, se adapta a diferentes estilos. La montura de latón aporta elegancia, mientras que el cable de tela negro añade un toque refinado. La fuente de luz es una bombilla E27 a la vista, que resalta la coloración del vidrio. Instalable de manera individual o en composiciones modulares, Luxor ofrece infinitas posibilidades.

La suspension Luxor est une œuvre de maîtrise artisanale, réalisée par des verriers. Sa forme allie design moderne et classique, en faisant un élément de décoration polyvalent. Disponible en finitions blanc, gris, vert sauge et taupe, elle s'adapte à différents styles. La monture en laiton brossé confère de l'élégance, tandis que le câble en tissu noir ajoute une touche raffinée. La source lumineuse est une ampoule E27 apparente, qui met en valeur la teinte du verre. Installable seule ou en compositions modulaires, Luxor offre des possibilités infinies.

La lampada a sospensione Moris è un corpo illuminante in vetro soffiato e decorato manualmente dai migliori maestri vetrai, è disponibile nelle finiture cristallo, ambra oppure fumè. La montatura metallica è rifinita in coordinato con il vetro per garantire continuità estetica. La sorgente luminosa è una lampadina E27, assicurando compatibilità con diverse tipologie di emissione luminosa. Il sistema di installazione consente il montaggio singolo o su basi componibili, offrendo soluzioni flessibili per diverse configurazioni spaziali e scenari applicativi.

The Moris pendant lamp is a lighting fixture made of blown glass, manually decorated by the finest glass masters. It is available in crystal, amber, or smoked finishes. The metal frame is finished to match the glass, ensuring aesthetic continuity. The light source is an E27 bulb, guaranteeing compatibility with various lighting emissions. The installation system allows for single mounting or use with modular bases, offering flexible solutions for different spatial configurations and application scenarios.

Die Hängeleuchte Moris ist ein Leuchtkörper aus mundgeblasenem Glas, der von den besten Glaskunstmeistern handdekoriert wird. Sie ist in den Ausführungen Kristall, Amber und Rauchglas erhältlich. Die Metallhalterung ist farblich auf das Glas abgestimmt, um eine ästhetische Kontinuität zu gewährleisten. Die Lichtquelle ist eine E27-Glühlampe.
Das Installationssystem ermöglicht sowohl eine Einzelmontage als auch die Integration in modulare Basissysteme, wodurch flexible Lösungen für unterschiedliche räumliche Konfigurationen und Anwendungsbereiche geboten werden.

La lámpara de suspensión Moris es un cuerpo iluminante de vidrio soplado y decorado manualmente por los mejores maestros vidrieros. Está disponible en los acabados cristal, ámbar o ahumado. La estructura metálica está acabada en coordinación con el vidrio para garantizar una continuidad estética. La fuente de luz es una bombilla E27.
El sistema de instalación permite el montaje individual o en bases modulares, ofreciendo soluciones flexibles para diferentes configuraciones espaciales y escenarios de aplicación.

La suspension Moris est un luminaire en verre soufflé, décoré manuellement par les meilleurs maîtres verriers. Elle est disponible en finitions cristal, ambre ou fumé. La monture est assortie au verre pour assurer une continuité esthétique harmonieuse. La source lumineuse est une ampoule E27, garantissant une compatibilité avec différents types d'émission lumineuse. Le système d'installation permet un montage individuel ou sur bases modulables, offrant des solutions flexibles pour diverses configurations spatiales et applications.

Shown in the image: hanging lamp FOCUS/B on single lamp FOCUS/B1

Shown in the image: composition of 3 lights FOCUS/F on multiple base FCOUS/B3

La lampada Focus introduce un aggiornamento con vetro disponibile nelle finiture best seller bianco, fumé e ambra. Il sistema di nottolini a soffitto e sulla lampada (inclusi) consente regolazioni verticali simultanee, ottimizzando la distribuzione luminosa. La montatura in metallo galvanizzato è coordinata alla finitura del vetro, mentre il cavo in tessuto nero garantisce resistenza ed estetica raffinata. Focus è venduto senza base, da ordinare separatamente tra le basi compatibili della serie, offrendo flessibilità d'installazione e possibilità di configurazioni personalizzate.

The Focus lamp features an update with glass available in the best-selling finishes: white, smoked, and amber. The system of ceiling and lamp-mounted adjustment knobs (included) allows for simultaneous vertical adjustments, optimizing light distribution. The galvanized metal frame is matched to the glass finish, while the black fabric cable ensures durability and a refined aesthetic. Focus is sold without a base, which must be ordered separately from the compatible bases in the series, offering installation flexibility and customizable configurations.

Die Focus-Leuchte wurde aktualisiert und ist jetzt mit Glas in den Bestseller-Oberflächen. Das Decken- und Lampenhalterungssystem (inklusive Notollini) ermöglicht simultane Höhenverstellungen, um die Lichtverteilung optimal anzupassen. Die Metallstruktur mit galvanischer Beschichtung ist farblich auf das Glas abgestimmt, während das schwarze Textilkabel für Langlebigkeit und ein elegantes Design sorgt. Focus wird ohne Basis verkauft, die separat aus den kompatiblen Basen der Serie bestellt werden muss.

La lámpara Focus presenta una actualización con vidrio disponible en los acabados más vendidos: blanco, ahumado y ámbar. El sistema de tensores en el techo y en la lámpara (incluidos) permite ajustes verticales simultáneos, optimizando la distribución de la luz. La estructura de metal galvanizado combina con el acabado del vidrio, mientras que el cable de tela negra garantiza resistencia y estilo. Focus se vende sin base, que debe pedirse por separado entre las opciones compatibles de la serie, ofreciendo flexibilidad de instalación y configuraciones personalizadas.

La lampe Focus présente une mise à jour avec un verre disponible dans les finitions best-sellers blanc, fumé et ambre. Le système de butées au plafond et sur la lampe (incluses) permet des réglages verticaux simultanés, optimisant la répartition de la lumière. La monture en métal galvanisé est assortie à la finition du verre, tandis que le câble en tissu noir assure résistance et élégance. Focus est vendue sans base, à commander séparément parmi les bases compatibles de la série, offrant flexibilité d'installation et configurations personnalisées.

Shown in the image: hanging lamp KOI/SP N

La collezione Koi unisce design moderno ed essenziale a un'illuminazione efficace. Il diffusore in acrilico trasparente assicura una diffusione luminosa ottimale, creando atmosfere eleganti e accoglienti. Disponibile in diverse versioni e finiture, si adatta perfettamente a qualsiasi spazio, offrendo soluzioni versatili per ogni esigenza di stile e funzionalità.

The Koi collection combines modern and essential design with effective lighting. The transparent acrylic diffuser ensures optimal light distribution, creating elegant and cozy atmospheres. Available in different versions and finishes, it perfectly adapts to any space, offering versatile solutions for every style and functional need.

Die Koi-Kollektion vereint modernes, minimalistisches Design mit effizienter Beleuchtung. Der transparente Acryl-Diffusor sorgt für eine optimale Lichtverteilung und schafft eine elegante, einladende Atmosphäre. In verschiedenen Versionen und Oberflächen erhältlich, passt sie sich perfekt jedem Raum an und bietet vielseitige Lösungen für jeden Stil und jede Anforderung.

La colección Koi combina un diseño moderno y esencial con una iluminación eficiente. El difusor de acrílico transparente garantiza una óptima dispersión de la luz, creando ambientes elegantes y acogedores. Disponible en diferentes versiones y acabados, se adapta perfectamente a cualquier espacio, ofreciendo soluciones versátiles para cada necesidad de estilo y funcionalidad.

La collection Koi allie design moderne et épuré à un éclairage efficace. Le diffuseur en acrylique transparent assure une dispersion lumineuse optimale, créant des ambiances élégantes et accueillantes. Disponible en plusieurs versions et finitions, elle s'adapte parfaitement à tout espace, offrant des solutions polyvalentes pour chaque besoin en style et en fonctionnalité.

Shown in the image: ceiling/wall lamp KOI/PA60 O

Shown in the image: honging lamp KOI/SG O

Shown in the image: hanging lamp KOI/S5 N

La collezione Koi è una linea di corpi illuminanti caratterizzati da un design minimale e prestazioni elevate. Disponibile nelle varianti a sospensione, parete e soffitto, è realizzata in diverse dimensioni per adattarsi a varie configurazioni di installazione. Le finiture disponibili sono nero opaco e oro opaco, entrambe ottenute mediante verniciatura a resistenza elevata. L'emissione luminosa è garantita da una strip LED CCT, che consente la regolazione della temperatura colore per un'illuminazione personalizzata. Il diffusore in acrilico trasparente ottimizza la distribuzione del flusso luminoso, riducendo l'abbagliamento e migliorando l'efficienza ottica.

The Koi collection is a range of lighting fixtures characterized by a minimalist design and high performance. Available in suspension, wall, and ceiling versions, it comes in various sizes to suit different installation configurations. The available finishes are matte black and matte gold, both achieved through high-resistance painting. The CCT LED strip ensures optimal light emission, allowing for color temperature adjustment to achieve personalized illumination. The transparent acrylic diffuser enhances light distribution, reducing glare and improving optical efficiency. Ideal for both residential and contract applications, the Koi collection combines aesthetics with advanced lighting technology.

Die Koi-Kollektion ist eine Serie von Leuchten mit minimalistischem Design und hoher Leistungsfähigkeit. Erhältlich in den Varianten Pendelleuchte, Wand- und Deckenmontage, wird sie in verschiedenen Größen angeboten, um sich an unterschiedliche Installationsanforderungen anzupassen. Die verfügbaren Oberflächen sind mattes Schwarz und mattes Gold, beide mit einer besonders widerstandsfähigen Lackierung versehen. Die Lichtquelle besteht aus einem CCT-LED-Strip, der eine Anpassung der Farbtemperatur für eine individuelle Beleuchtung ermöglicht. Der transparente Acryl-Diffusor optimiert die Lichtverteilung, reduziert Blendung und verbessert die optische Effizienz. Ideal für Wohn- und Objektbeleuchtung.

La colección Koi es una línea de cuerpos de iluminación caracterizada por un diseño minimalista y un alto rendimiento. Disponible en versiones suspendida, de pared y de techo, se fabrica en diferentes dimensiones para adaptarse a diversas configuraciones de instalación. Los acabados disponibles son negro mate y oro mate, ambos obtenidos mediante un proceso de pintura de alta resistencia. La emisión de luz está garantizada por una tira LED CCT, que permite ajustar la temperatura de color para una iluminación personalizada. El difusor de acrílico transparente optimiza la distribución del flujo luminoso, reduciendo el deslumbramiento y mejorando la eficiencia óptica.

La collection Koi est une gamme de corps éclairants caractérisés par un design minimaliste et des performances élevées. Disponible en versions suspension, applique murale et plafonnier, elle est proposée en différentes dimensions pour s'adapter à diverses configurations d'installation. Les finitions disponibles sont noir mat et or mat, toutes deux obtenues par un procédé de peinture haute résistance. L'émission lumineuse est assurée par une strip LED CCT, permettant un réglage de la température de couleur pour un éclairage personnalisé. Le diffuseur en acrylique transparent optimise la répartition du flux lumineux, réduisant l'éblouissement et améliorant l'efficacité optique.

Kendo è una lampada da soffitto con corpo disponibile nelle finiture nero con rame spazzolato, ottone spazzolato o effetto legno. Integra una sorgente luminosa LED ad alta efficienza energetica, abbinata a un diffusore satinato che garantisce un'emissione luminosa uniforme e priva di abbagliamento, ideale per illuminazione funzionale e decorativa in qualsiasi ambiente tecnico-residenziale.

Kendo is a ceiling lamp featuring a body available in black with brushed copper, brushed brass, or wood-effect finishes. It incorporates a high-efficiency LED light source, paired with a frosted diffuser that ensures uniform, glare-free illumination. Ideal for both functional and decorative lighting in any technical-residential environment.

Kendo ist eine Deckenleuchte mit Gehäuse in Schwarz mit gebürstetem Kupfer, gebürstetem Messing oder Holzoptik. Sie nutzt eine LED-Lichtquelle und einen satinierten Diffusor für gleichmäßige Ausleuchtung. Ideal für funktionale Beleuchtung in technischen und Wohnumgebungen.

Kendo es una lámpara de techo con un cuerpo disponible en negro con cobre cepillado, latón cepillado o efecto madera. Utiliza una fuente de luz LED y un difusor satinado para conseguir una iluminación uniforme. Ideal para la iluminación funcional en entornos técnicos y residenciales.

Kendo est un plafonnier doté d'un boîtier disponible en noir avec cuivre brossé, laiton brossé ou aspect bois. Il utilise une source lumineuse LED et un diffuseur satiné pour un éclairage uniforme. Idéal pour un éclairage fonctionnel dans des environnements techniques et résidentiels.

Shown in the image: hanging lamp ALFEA/A

Shown in the image: hanging lamp ALFEA/C on track base TRACK/200 N

Alfea è una lampada a sospensione in vetro soffiato e decorato artigianalmente dai maestri vetrai italiani, caratterizzata da un'elevata qualità costruttiva. Disponibile nelle finiture ambra, cristallo e fumé, è dotata di una montatura in metallo con finitura coordinata al vetro. La sorgente luminosa è una lampadina con attacco E27, compatibile con diverse soluzioni di illuminazione. Non è dotata di base, che va ordinata separatamente scegliendo tra le nostre basi modulari.

Alfea is a pendant lamp made of hand-blown glass, expertly crafted by Italian glass masters, ensuring high-quality construction. Available in amber, crystal, and smoked finishes, it features a metal frame with a finish matching the glass. The light source is an E27 bulb, compatible with various lighting solutions. It is not supplied with a base, which must be ordered separately from our modular base options.

Alfea ist eine Pendelleuchte aus mundgeblasenem Glas, das von italienischen Glashandwerksmeistern kunstvoll verziert wurde und höchste Verarbeitungsqualität bietet. Erhältlich in den Ausführungen Bernstein, Kristall und Rauchglas, verfügt sie über eine Metallhalterung mit einer zum Glas passenden Oberfläche. Die Lichtquelle ist eine E27-Lampe, die mit verschiedenen Beleuchtungslösungen kompatibel ist. Sie wird ohne Basis geliefert, die separat aus unseren modularen Basen ausgewählt und bestellt werden kann.

Alfea es una lámpara de suspensión de vidrio soplado y decorado artesanalmente por maestros vidrieros italianos, caracterizada por su alta calidad de fabricación. Disponible en acabados ámbar, cristal y ahumado, cuenta con una estructura metálica con acabado a juego con el vidrio. La fuente de luz es una bombilla con casquillo E27, compatible con diversas soluciones de iluminación. No incluye base, que debe pedirse por separado eligiendo entre nuestras bases modulares.

Alfea est une lampe suspendue en verre soufflé et décoré artisanalement par des maîtres verriers italiens, garantissant une qualité de fabrication exceptionnelle. Disponible en finitions ambre, cristal et fumé, elle est équipée d'une monture en métal avec une finition assortie au verre. La source lumineuse est une ampoule E27, compatible avec différentes solutions d'éclairage. Elle n'est pas fournie avec une base, qui doit être commandée séparément parmi nos bases modulaires.

Shown in the image: hanging lamps FENICE/LG and FENICE/F on multiple base BASE/9L B

Shown in the image: hanging lamps FENICE/AM and FENICE/F on multiple BASE/13L B

La lampada a sospensione Fenice è il risultato di un'accurata lavorazione artigianale in vetro soffiato, eseguita dai nostri maestri vetrai. Ogni diffusore è modellato manualmente per garantire uniformità e leggerezza, con finiture fumè, ambra e bianco satinato che valorizzano la trasparenza e la diffusione luminosa. Dotata di sorgente G9, assicura un'illuminazione ottimale. Grazie alle sue dimensioni compatte, è adatta sia a installazioni modulari con basi componibili che a soluzioni singole, sospese o a parete.

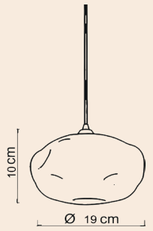

The Fenice pendant lamp is the result of meticulous handcrafted glassblowing, skillfully executed by our master glassmakers. Each diffuser is manually shaped to ensure uniformity and lightness, with smoked, amber, and satin white finishes enhancing transparency and light diffusion. Equipped with a G9 light source, it provides optimal illumination. Thanks to its compact size, it is suitable for modular installations with customizable bases or as a single solution, either suspended or wall-mounted.

Die Pendelleuchte FENICE entsteht durch präzise handwerkliche Glasbläserkunst. Jeder Diffusor wird manuell geformt, um eine harmonische, leichte Struktur zu gewährleisten. Die Oberflächen in Rauchgrau, Amber und satiniertem Weiß betonen Transparenz und Lichtverteilung. Mit einer G9-Lichtquelle sorgt sie für optimale Beleuchtung. Durch ihre kompakte Größe eignet sie sich für modulare Installationen mit Kombibasen oder als einzelne Lösung, hängend oder wandmontiert. Ihre elegante Ästhetik kombiniert Tradition und Funktionalität auf höchstem Niveau.

La lámpara de suspensión FENICE es el resultado de un meticuloso trabajo artesanal en vidrio soplado, realizado por nuestros maestros vidrieros. Cada difusor se modela manualmente para garantizar uniformidad y ligereza, con acabados en fumé, ámbar y blanco satinado que realzan la transparencia y la difusión de la luz. Equipada con una fuente luminosa G9, asegura una iluminación óptima. Gracias a su tamaño compacto, es ideal tanto para instalaciones modulares con bases componibles como para soluciones individuales, suspendidas o de pared.

La suspension FENICE est le résultat d'un travail artisanal précis en verre soufflé, réalisé par nos maîtres verriers. Chaque diffuseur est façonné à la main pour garantir homogénéité et légèreté, avec des finitions fumé, ambre et blanc satiné qui subliment la transparence et la diffusion de la lumière. Équipée d'une source lumineuse G9, elle assure un éclairage optimal. Grâce à ses dimensions compactes, elle convient aux installations modulaires avec bases composables ainsi qu'aux solutions individuelles, en suspension ou en applique.

CARMEN

Shown in the image: hanging lamp CARMEN/1 B on wall lamp base MULTI/A40

Shown in the image: composition of 4 lights CARMEN/1 B and CARMEN/2B on multiple base BASE/4RE N

La sospensione Carmen si distingue per la sua linea evergreen, capace di adattarsi perfettamente sia ad ambienti dallo stile retrò che a spazi moderni. Il suo design senza tempo combina eleganza e versatilità, rendendola una scelta di grande presenza sia per locali commerciali che per ambienti residenziali. Materiali di qualità, finiture curate e illuminazione efficace ne esaltano l'estetica.

The Carmen pendant light stands out for its evergreen design, perfectly adapting to both retro-style environments and modern spaces. Its timeless design combines elegance and versatility, making it a striking choice for both commercial spaces and residential settings. High-quality materials, refined finishes, and effective lighting enhance its aesthetic appeal.

Die Hängeleuchte Carmen zeichnet sich durch ihre zeitlose Linie aus, die sich perfekt an sowohl retro-inspirierte als auch moderne Räume anpasst. Ihr zeitloses Design vereint Eleganz und Vielseitigkeit und macht sie zu einer beeindruckenden Wahl für sowohl gewerbliche als auch private Räume. Hochwertige Materialien, sorgfältige Oberflächen und eine effiziente Beleuchtung unterstreichen ihre ästhetische Wirkung.

La lámpara colgante Carmen se distingue por su línea atemporal, capaz de adaptarse perfectamente tanto a entornos de estilo retro como a modernos. Su diseño clásico combina elegancia y versatilidad, convirtiéndola en una opción de gran presencia tanto para locales comerciales como para espacios residenciales. Materiales de calidad, acabados cuidadosamente elaborados y una iluminación eficiente realzan su estética.

La suspension Carmen se distingue par sa ligne intemporelle, capable de s'adapter parfaitement à des environnements au style rétro comme à des espaces modernes. Son design intemporel allie élégance et polyvalence, en faisant un choix de grande présence tant pour les locaux commerciaux que pour les espaces résidentiels. Des matériaux de qualité, des finitions soignées et un éclairage efficace mettent en valeur son esthétique.

CARMEN

La lampada a sospensione Carmen è realizzata in vetro soffiato su stampo, disponibile in tre finiture: bianco satinato, caffè e ambra, e in due versioni con misure differenti. La montatura in finitura ottone spazzolato è abbinata ai vetri caffè e ambra, mentre il vetro bianco è accompagnato da una montatura bianco opaco. In tutte le versioni, il cavo è rivestito in tessuto nero. La sorgente luminosa è una lampadina E27. La lampada può essere installata singolarmente o in composizioni più numerose fino a 13 luci, grazie alle nostre basi compatibili, offrendo versatilità e eleganza.

The Carmen pendant light is made of blown glass with a mold, available in three finishes: satin white, coffee, and amber, and in two versions with different sizes. The brushed brass frame is paired with the coffee and amber glass, while the white glass is accompanied by a matte white frame. In all versions, the cable is covered with black fabric. The light source is an E27 bulb. The lamp can be installed individually or in larger compositions of up to 13 lights, thanks to our compatible bases, offering versatility and elegance.

Die Carmen Pendelleuchte ist aus mundgeblasenem Glas gefertigt und in drei Ausführungen erhältlich: satiniertes Weiß, Kaffee und Amber, sowie in zwei Varianten mit unterschiedlichen Größen. Der Metallrahmen in gebürstetem Messing ist mit den Glasvarianten Kaffee und Amber kombiniert, während das weiße Glas mit einem mattweißen Rahmen versehen ist. In allen Versionen ist das Kabel mit schwarzem Stoff ummantelt. Die Lichtquelle ist eine E27-Lampe. Die Leuchte kann einzeln oder in größeren Kompositionen mit bis zu 13 Lichtern installiert werden, dank unserer kompatiblen Basen, die Vielseitigkeit und Eleganz bieten.

La lámpara colgante Carmen está fabricada en vidrio soplado sobre molde, disponible en tres acabados: blanco satinado, café y ámbar, y en dos versiones con diferentes medidas. La estructura en latón cepillado se combina con los vidrios café y ámbar, mientras que el vidrio blanco se acompaña de una estructura blanca mate. El cable está recubierto con tela negra. La fuente luminosa es una bombilla E27. La lámpara se puede instalar individualmente o en composiciones hasta 13 luces, gracias a nuestras bases compatibles, ofreciendo versatilidad y elegancia.

La suspension Carmen est fabriquée en verre soufflé sur moule, disponible en trois finitions : blanc satiné, café et ambre, et en deux versions avec différentes tailles. Le support en finition laiton brossé est associé aux verres café et ambre, tandis que le verre blanc est accompagné d'un support blanc mat. Dans toutes les versions, le câble est recouvert de tissu noir. La source lumineuse est une ampoule E27. La lampe peut être installée seule ou en compositions plus nombreuses, jusqu'à 13 lumières, grâce à nos bases compatibles, offrant ainsi polyvalence et élégance.

We offer customized ceiling bases, tailor-made to meet each client's specific needs. Contact us for more information and to discover the solutions best suited to your project.

Il design Sikrea unisce estetica e tecnologia per dare vita a soluzioni illuminotecniche personalizzabili, nasce per valorizzare ogni contesto. Ogni prodotto è il risultato di una ricerca approfondita sulla luce e sulle sue potenzialità, con flessibilità che risponde alle esigenze progettuali più diverse.
L'eleganza del design italiano si traduce in materiali di alta qualità, lavorazioni artigianali raffinate e un'attenzione costante all'innovazione, creando atmosfere suggestive e funzionali che rendono ogni ambiente unico e accogliente.

Sikrea design combines aesthetics and technology to create customizable lighting solutions, created to enhance every context. Each product is the result of in-depth research into light and its potential, with flexibility that responds to the most diverse design needs. The elegance of Italian design translates into high-quality materials, refined craftsmanship and constant attention to innovation, creating evocative and functional atmospheres that make every environment unique and welcoming.

ANNA

Shown in the image: hanging lamp ANNA/6 and floor lamp ANNA/P

La collezione di lampade Anna, in ottone spazzolato, include varianti a soffitto, parete, tavolo, terra e sospensione. La sospensione è disponibile nella variante singola, venduta senza rosone e da ordinare separatamente a scelta tra le basi componibili, oppure nella variante con sei bracci orientabili, utilizza attacchi E27 con lampadine a vista. Il sistema di snodi permette un'illuminazione direzionabile, garantendo versatilità ed elevata resa luminosa.

The Anna lighting collection, in brushed brass, includes ceiling, wall, table, floor, and pendant variants. The pendant version is available as a single light, sold without a canopy, which must be ordered separately from our modular bases, or as a six-arm adjustable version. It features E27 sockets with exposed bulbs. The articulated joint system allows for directional lighting, ensuring versatility and high luminous efficiency.

Die Anna kollektion aus gebürstetem Messing umfasst Varianten für Decke, Wand, Tisch, Boden und Pendel. Die Einzelpendelleuchte wird ohne Baldachin verkauft, alternativ gibt es eine Variante mit sechs schwenkbaren Armen. Die Leuchten nutzen E27-Fassungen mit sichtbaren Leuchtmitteln. Dank des Gelenksystems ist die Beleuchtung gezielt ausrichtbar und bietet hohe Flexibilität sowie optimale Lichtleistung.

La colección Anna, en latón cepillado, incluye variantes de techo, pared, mesa, suelo y suspensión. La versión de suspensión está disponible en variante individual, vendida sin rosetón y para ordenar por separado entre las bases modulares, o en la versión con seis brazos orientables. Utiliza portalámparas E27 con bombillas a la vista. El sistema de articulaciones permite una iluminación direccionable, garantizando versatilidad.

La collection Anna, en laiton brossé, comprend des versions plafonnier, applique murale, lampe de table, lampadaire et suspension. La suspension est disponible en version simple, vendue sans rosace et à commander séparément parmi nos bases modulables, ou en version avec six bras orientables. Elle utilise des douilles E27 avec ampoules apparentes. Le système d'articulations permet un éclairage directionnel, offrant polyvalence.

GHOST

La plafoniera Ghost è realizzata in metallo con finitura platino e bianco, abbinata a dettagli in nero opaco. Utilizza lampadine GX53, il cui numero varia a seconda della versione, garantendo pertanto un'elevata resa luminosa. Questa tecnologia assicura anche una manutenzione agevole, grazie alla facile sostituzione delle sorgenti luminose, unendo efficienza, praticità e un design elegante.

The Ghost ceiling light is made of metal with a platinum and white finish, combined with matte black details. It uses GX53 bulbs, with the number varying depending on the version, ensuring high luminous efficiency. This technology also allows for easy maintenance, thanks to the simple replacement of light sources, combining efficiency, practicality, and elegant design.

Die Deckenleuchte Ghost besteht aus Metall mit einer Platin- und Weißlackierung, kombiniert mit mattschwarzen Details. Sie verwendet GX53-Leuchtmittel, deren Anzahl je nach Version variiert und somit eine hohe Lichtausbeute gewährleistet. Diese Technologie ermöglicht zudem eine einfache Wartung durch den unkomplizierten Austausch der Lichtquellen und vereint Effizienz, Praktikabilität und elegantes Design.

La lámpara de techo Ghost está fabricada en metal con un acabado en platino y blanco, combinado con detalles en negro mate. Utiliza bombillas GX53, cuyo número varía según la versión, garantizando así un alto rendimiento lumínico. Esta tecnología también permite un mantenimiento sencillo gracias a la fácil sustitución de las fuentes de luz, combinando eficiencia, practicidad y un diseño elegante.

Le plafonnier Ghost est fabriqué en métal avec une finition platine et blanche, assortie de détails en noir mat. Il utilise des ampoules GX53, dont le nombre varie selon la version, garantissant ainsi un rendement lumineux élevé. Cette technologie permet également un entretien facile grâce au remplacement simple des sources lumineuses, alliant efficacité, praticité et design élégant.

La collezione di lampade Elia combina un design minimal ed evergreen con elevate prestazioni luminose. Strutturata attorno a un profilo sottile in alluminio verniciato, disponibile nelle finiture oro o nero opaco, integra una strip LED CCT ad alta efficienza. Il sistema SDD permette la regolazione della temperatura colore e dell'intensità luminosa. La gamma include sospensioni, plafoniere, applique, lumi e piantane, offrendo soluzioni versatili.

The Elia lighting collection combines a minimal and evergreen design with high-performance lighting. Built around a slim aluminum profile, available in gold or matte black finishes, it features a high-efficiency CCT LED strip. The SDD system allows for precise adjustment of both color temperature and light intensity. The range includes suspensions, ceiling lights, wall lamps, table lamps, and floor lamps, providing versatile solutions for any lighting requirement.

Die Elia-Leuchtenkollektion vereint ein minimalistisches und zeitloses Design mit hoher Lichtleistung. Die Struktur besteht aus einem schlanken Aluminiumprofil, erhältlich in den Ausführungen Gold oder Mattschwarz, und integriert einen hocheffizienten CCT-LED-Streifen. Das SDD-System ermöglicht die Anpassung der Farbtemperatur und Lichtintensität. Die Serie umfasst Hängeleuchten, Deckenleuchten, Wandleuchten, Tischlampen und Stehleuchten.

La colección de lámparas Elia combina un diseño minimalista y atemporal con un alto rendimiento lumínico. Estructurada en torno a un perfil delgado de aluminio pintado, disponible en acabados oro o negro mate, integra una tira LED CCT de alta eficiencia. El sistema SDD permite regular la temperatura de color y la intensidad de la luz. La gama incluye suspensiones, plafones, apliques, lámparas de mesa y de pie, ofreciendo soluciones versátiles.

La collection de lampes Elia allie un design minimaliste et intemporel à des performances lumineuses élevées. Structurée autour d'un profil fin en aluminium peint, disponible en finitions or ou noir mat, elle intègre un ruban LED CCT haute efficacité. Le système SDD permet d'ajuster la température de couleur et l'intensité lumineuse. La gamme comprend suspensions, plafonniers, appliques, lampes de table et lampadaires, offrant des solutions polyvalentes.

OSLO

Shown in the image: hanging lamp OSLO/120 N

La lampada Oslo, disponibile in versione a sospensione o plafoniera, è progettata con un profilo circolare in alluminio estruso, che garantisce leggerezza strutturale e resistenza. Al suo interno è integrata una strip LED CCT, con luce orientata verso l'interno dell'anello per un effetto luminoso morbido e diffuso. Il diffusore in silicone opalino assicura un'illuminazione uniforme, riducendo l'abbagliamento e ottimizzando il comfort visivo.

The Oslo lamp, available in suspension or ceiling-mounted versions, features a circular extruded aluminum profile, ensuring structural lightness and durability. Inside, it integrates a CCT LED strip, with light directed towards the inner side of the ring for a soft and diffused lighting effect. The opal silicone diffuser ensures uniform illumination, reducing glare and optimizing visual comfort.

Die Oslo-Lampe, erhältlich als Hängeleuchte oder Deckenleuchte, wurde mit einem kreisförmigen Aluminiumprofil entworfen, das für strukturelle Leichtigkeit und Widerstandsfähigkeit sorgt. Im Inneren ist ein CCT-LED-Streifen integriert, dessen Licht nach innen gerichtet ist, um eine sanfte und gleichmäßige Beleuchtung zu erzeugen. Der diffuse Silikondiffusor gewährleistet eine homogene Lichtverteilung, reduziert Blendung und optimiert den visuellen Komfort.

La lámpara Oslo, disponible en versión suspendida o plafón, está diseñada con un perfil circular de aluminio extruido, que garantiza ligereza estructural y resistencia. En su interior, integra una tira LED CCT, con luz orientada hacia el interior del anillo para un efecto luminoso suave y difuso. El difusor de silicona opalina asegura una iluminación uniforme, reduciendo el deslumbramiento y optimizando el confort visual.

La lampe Oslo, disponible en version suspension ou plafonnier, est conçue avec un profil circulaire en aluminium extrudé, garantissant légèreté structurelle et résistance. À l'intérieur, elle intègre un ruban LED CCT, avec une lumière orientée vers l'intérieur de l'anneau pour un effet lumineux doux et diffus. Le diffuseur en silicone opalin assure un éclairage uniforme, réduisant l'éblouissement et optimisant le confort visuel.

La lampada Ring è realizzata in metallo e integra una Strip LED CCT. L'emissione luminosa è diffusa in modo uniforme attraverso una cover in silicone, garantendo comfort visivo ed efficienza. Disponibile nelle finiture nero opaco, oro verniciato e bianco opaco, assicura un'illuminazione performante.

The Ring lamp is made of metal and features a Strip LED CCT. The light emission is evenly diffused through a silicone cover, ensuring visual comfort and efficiency. Available in matte black, painted gold, and matte white finishes, it provides high-performance lighting.

Die Ring-Lampe besteht aus Metall und integriert einen Strip LED CCT. Die Lichtabstrahlung wird gleichmäßig durch eine Silikonabdeckung verteilt, was Komfort und Effizienz gewährleistet. Erhältlich in den Ausführungen matt schwarz, Gold lackiert und matt weiß, sorgt sie für eine leistungsstarke Beleuchtung.

La lámpara Ring está fabricada en metal e integra una tira LED CCT. La emisión luminosa se difunde uniforme a través de una cubierta de silicona, garantizando confort visual y eficiencia. Disponible en acabados negro mate, oro pintado y blanco mate, ofrece una iluminación de alto rendimiento.

La lampe Ring est fabriquée en métal et intègre une Strip LED CCT. L'émission lumineuse est diffusée de manière uniforme à travers un diffuseur en silicone, garantissant confort visuel et efficacité. Disponible en finitions noir mat, or laqué et blanc mat, elle assure un éclairage performant.

POINT

Shown in the image: hanging lamp POINT/S and floor lamp POINT/P

La collezione Point è essenziale e funzionale, progettata per garantire praticità e versatilità. Dotata di lampadine GX53, offre un'illuminazione efficiente e facilmente sostituibile. Nelle versioni da terra, da parete e a sospensione, la sorgente luminosa è orientabile, permettendo un'illuminazione mirata. Disponibile nella finitura nero goffrato.

The Point collection is essential and functional, designed for practicality and versatility. Equipped with GX53 bulbs, it provides efficient and easily replaceable lighting. In the floor, wall, and suspension versions, the light source is adjustable, allowing for directed illumination. Available in a matte black finish.

Die Kollektion Point ist schlicht und funktional, entwickelt für hohe Praktikabilität und Vielseitigkeit. Ausgestattet mit GX53-Lampen, bietet sie eine effiziente, leicht austauschbare Beleuchtung. In den Versionen Steh-, Wand- und Pendelleuchte ist die Lichtquelle schwenkbar, wodurch eine gezielte Beleuchtung ermöglicht wird.

La colección Point es sencilla y funcional, diseñada para ofrecer practicidad y versatilidad. Equipada con bombillas GX53, proporciona una iluminación eficiente y fácilmente reemplazable. En las versiones de pie, de pared y colgante, la fuente de luz es orientable, permitiendo una iluminación dirigida. Disponible en acabado negro mate.

La collection Point est sobre et fonctionnelle, conçue pour une grande praticité et polyvalence. Équipée d'ampoules GX53, elle offre un éclairage efficace et facilement remplaçable. Dans les versions lampadaire, applique murale et suspension, la source lumineuse est orientable, permettant un éclairage ciblé. Disponible en finition noir mat.

LEDY

Shown in the image: hanging lamp LEDY/N

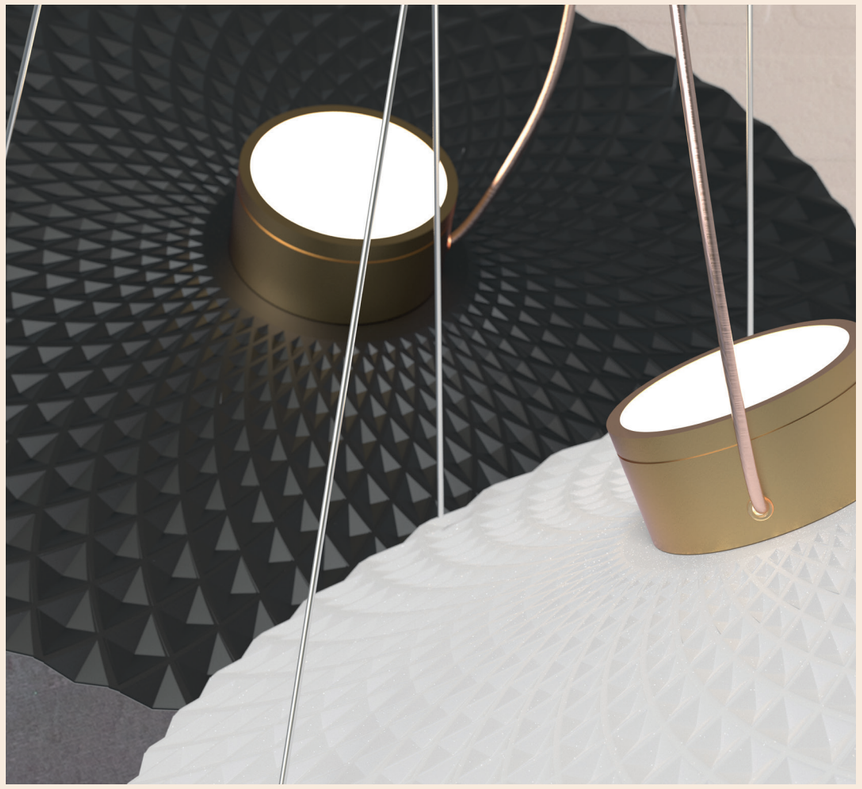

La lampada a sospensione Ledy si distingue per il suo piatto lavorato e rifinito in bianco o nero opaco, arricchito da dettagli in bronzo spazzolato sulla montatura. Il piatto, sostenuto da cavi in acciaio, è inclinabile per personalizzare l'illuminazione secondo le esigenze. Il filo in rame aggiunge un tocco di raffinatezza e unicità al design. La fonte luminosa è composta da tre lampadine GX53: due collocate sul piatto e una sulla base, garantendo un'illuminazione diffusa ed equilibrata. L'insieme di materiali e finiture rende Ledy una soluzione elegante e funzionale per ogni ambiente.

The Ledy pendant lamp stands out for its finely crafted plate, finished in matte white or black, enriched with brushed bronze details on the mounting. The plate, supported by steel cables, is adjustable, allowing for customized lighting orientation. A copper wire adds a touch of refinement and uniqueness to the design. The light source consists of three GX53 bulbs: two positioned on the plate and one on the base, ensuring diffused and balanced illumination. The combination of materials and finishes makes Ledy an elegant and functional lighting solution for any environment.

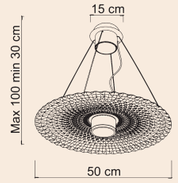

Die LED-Hängeleuchte LEDY zeichnet sich durch ihren bearbeiteten, matt weiß oder schwarz lackierten Schirm mit gebürsteten Bronze-Details an der Halterung aus. Der von Stahlseilen getragene Schirm ist neigbar, um die Beleuchtung individuell anzupassen. Ein Kupferkabel verleiht dem Design zusätzlichen Charakter. Die Lichtquelle besteht aus drei GX53-Lampen: zwei im Schirm und eine in der Basis, was für eine gleichmäßige Ausleuchtung sorgt. Die Kombination aus Materialien und Oberflächen macht LEDY zu einer eleganten, funktionalen Lösung für verschiedene Räume.

La lámpara colgante LEDY destaca por su pantalla trabajada y acabada en blanco o negro mate, con detalles en bronce cepillado. Sostenida por cables de acero, su inclinación es ajustable para personalizar la iluminación. El cable de cobre aporta sofisticación y exclusividad al diseño. La fuente de luz consta de tres bombillas GX53: dos en la pantalla y una en la base, proporcionando una iluminación equilibrada. La combinación de materiales y acabados hace de LEDY una opción elegante y funcional para cualquier espacio.

La suspension LEDY se distingue par son plateau travaillé et fini en blanc ou noir mat, enrichi de détails en bronze brossé sur la monture. Le plateau, soutenu par des câbles en acier, est inclinable pour personnaliser l'éclairage selon les besoins. Le fil en cuivre ajoute une touche de raffinement et d'unicité au design. La source lumineuse est composée de trois ampoules GX53 : deux placées sur le plateau et une sur la base, garantissant un éclairage diffus et équilibré. L'ensemble des matériaux et des finitions fait de LEDY une solution élégante et fonctionnelle pour tout type d'espace.

La collezione Talia offre lampade modulari con lampadine GX53, ideali per creare composizioni personalizzate. Grazie alle diverse forme disponibili, permette di realizzare configurazioni uniche secondo la propria creatività. Versatile e funzionale, può essere installata a soffitto o a parete, adattandosi a diversi contesti architettonici.

The Talia collection features modular lamps with GX53 bulbs, ideal for creating custom compositions. Thanks to the various available shapes, it allows for unique configurations based on individual creativity. Versatile and functional, it can be installed on the ceiling or wall, adapting to different architectural and stylistic contexts.

Die Talia-Kollektion bietet modulare Lampen mit GX53-Leuchtmitteln, ideal für individuelle Kompositionen. Dank verschiedener Formen können kreative Designs entstehen. Vielseitig und funktional, eignet sie sich zur Decken- oder Wandmontage und passt sich verschiedenen architektonischen und stilistischen Umgebungen an.

La colección Talia ofrece lámparas modulares con bombillas GX53, ideales para composiciones personalizadas. Con varias formas disponibles, permite crear configuraciones únicas según la creatividad. Versátil y funcional, puede instalarse en techo o pared, adaptándose a distintos espacios y estilos.

La collection Talia propose des lampes modulaires avec ampoules GX53, permettant des compositions personnalisées. Grâce aux différentes formes, elle s'adapte à toutes les créativités. Polyvalente et fonctionnelle, elle s'installe au plafond ou au mur, offrant une grande flexibilité pour divers espaces architecturaux et décoratifs.

Domino è una lampada minimal e versatile, installabile sia a parete che a soffitto. La sua fonte luminosa, costituita da striscia LED integrata o lampadine G9 per il cubetto 11, insieme al diffusore in acrilico satinato, garantisce una luce omogenea e di buona intensità, adattandosi a diversi ambienti e necessità.

Domino is a minimal and versatile lamp, installable on both walls and ceilings. Its light source, made of integrated LED strip or G9 bulbs for the 11 cube, along with the satin acrylic diffuser, provides homogeneous light with good intensity, adapting to various environments and needs.

Domino ist eine minimalistische und vielseitige Lampe, die sowohl an der Wand als auch an der Decke installiert werden kann. Ihre Lichtquelle, bestehend aus einem integrierten LED-Streifen oder G9-Lampen für den Würfel 11, zusammen mit dem satinierten Acryl-Diffusor, sorgt für ein gleichmäßiges und ausreichend starkes Licht.

Domino es una lámpara minimalista y versátil, instalable tanto en la pared como en el techo. Su fuente de luz, compuesta por tira LED integrada o bombillas GP para el cubo 11, junto con el difusor de acrílico satinado, garantiza una luz homogénea y de buena intensidad, adaptándose a diferentes ambientes y necesidades.

Domino est une lampe minimaliste et polyvalente, installable aussi bien au mur qu'au plafond. Sa source lumineuse, composée d'une bande LED intégrée ou de lampes GP pour le cubo 11, associée au diffuseur en acrylique satiné, garantit une lumière homogène et d'intensité adéquate, s'adaptant à différents espaces et besoins.

La lampada a soffitto Link è realizzata in metallo con finiture ottone e rame spazzolato, nero e bianco opaco. Dotata di struttura orientabile a 360 gradi, permette una regolazione precisa e versatile del fascio luminoso. Installa lampadine GU10, garantisce performance luminosa elevata, praticità d'installazione e manutenzione semplificata in ogni contesto applicativo.

The Link ceiling lamp is made of metal with brushed brass and copper, matte black, and white finishes. Equipped with a 360-degree adjustable structure, it allows precise and versatile control of the light beam. Compatible with GU10 bulbs, it ensures high lighting performance, easy installation, and simplified maintenance in any application context.

Die Deckenleuchte Link aus Metall ist in Messing, gebürstetem Kupfer, Schwarz sowie mattem Weiß erhältlich. Dank 360 Grad verstellbarer Struktur ermöglicht sie präzise Ausrichtung des Lichtstrahls. Mit GU10-Leuchtmitteln garantiert sie hohe Lichtleistung, einfache Installation und wartungsfreundliche Handhabung für jeden Einsatzbereich.

La lámpara de techo Link está fabricada en metal con acabados de latón y cobre cepillado, negro y blanco opaco. Equipada con estructura orientable a 360 grados, permite una regulación precisa y versátil del haz de luz. Utiliza bombillas GU10, garantizando alto rendimiento luminico, facilidad de instalación y mantenimiento sencillo en cualquier contexto de aplicación.

Le plafonnier Link est réalisé en métal avec des finitions en laiton et cuivre brossé, noir et blanc mat. Doté d'une structure orientable à 360 degrés, il permet un réglage précis et polyvalent du faisceau lumineux. Équipé d'ampoules GU10, il garantit une haute performance lumineuse, une installation pratique et une maintenance simplifiée dans tout contexte d'application.

BASE MULTI

MULTI Canopy

M

La base componibile Multi rappresenta un sistema modulare avanzato per la realizzazione di componenti di illuminazione. Essa integra infatti componenti specifici per la creazione di apparecchi a parete in tre diverse misure e da terra, a partire da una sospensione. Progettata con materiali ad alta resistenza e precisione ingegneristica, garantisce installazione rapida, compatibilità tecnica e prestazioni ottimali.

The Multi modular base represents an advanced modular system for the creation of lighting components. It integrates specific components for the construction of wall fixtures in three different sizes, as well as floor lamps starting from a suspension. Designed with high-resistance materials and engineering precision, it guarantees fast installation, technical compatibility, and optimal performance.

Die modulare Basis Multi repräsentiert ein fortschrittliches System zur Herstellung von Beleuchtungskomponenten. Sie integriert spezifische Komponenten zur Erstellung von Wandleuchten in drei verschiedenen Größen sowie von Standleuchten, die auf einer Hängelampe basieren. Konzipiert mit hochbelastbaren Materialien und präziser Ingenieurskunst gewährleistet sie eine schnelle Installation, technische Kompatibilität und optimale Leistung.

La base componible Multi representa un sistema modular avanzado para la realización de componentes de iluminación. De hecho, integra componentes específicos para la creación de dispositivos de pared en tres medidas diferentes y de suelo, a partir de una suspensión. Diseñada con materiales de alta resistencia y precisión en ingeniería, garantiza una instalación rápida, compatibilidad técnica y un rendimiento óptimo.

La base modulable Multi représente un système modulaire avancé pour la réalisation de composants d'éclairage. Elle intègre en effet des composants spécifiques pour la création d'appareils muraux en trois tailles différentes et de lampes sur pied, à partir d'une suspension. Conçue avec des matériaux à haute résistance et une précision d'ingénierie, elle garantit une installation rapide, une compatibilité technique et des performances optimales.

BASE ZETA

ZETA System Canopy

Z

Basi a soffitto per sistema componibile sospensioni :
Il sistema ZETA è una soluzione modulare avanzata che consente configurazioni personalizzate con effetto sali e scendi, partendo da un unico punto di alimentazione, sia centrale che decentrato. La sua struttura consente un'espansione illimitata dell'illuminazione, garantendo massima flessibilità progettuale. Di semplice installazione, è compatibile esclusivamente con le sospensioni elettrificate 220V del nostro catalogo, assicurando un'integrazione efficiente e sicura nei diversi contesti applicativi.

Ceiling bases for modular suspension system :
The ZETA system is an advanced modular solution that enables customized configurations with an up-and-down effect, starting from a single power point, either central or offset. Its structure allows unlimited lighting expansion, ensuring maximum design flexibility. Easy to install, it is compatible exclusively with the 220V electrified suspensions from our catalog, guaranteeing efficient and safe integration in various application contexts.

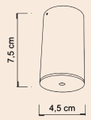

Deckenbasen für modulares Aufhängungssystem :
Das ZETA-System ist eine fortschrittliche modulare Lösung, die individuelle Konfigurationen mit einem Auf- und Ab-Effekt ermöglicht und von einem einzigen Stromanschluss ausgeht, entweder zentral oder dezentral. Seine Struktur erlaubt eine unbegrenzte Erweiterung der Beleuchtung und gewährleistet maximale Flexibilität in der Planung. Einfach zu installieren, ist es ausschließlich mit den 220V-elektrifizierten Pendelleuchten aus unserem Katalog kompatibel und sorgt für eine effiziente und sichere Integration.

Bases de techo para sistema de suspensión modular :
El sistema ZETA es una solución modular avanzada que permite configuraciones personalizadas con efecto de subida y bajada, partiendo de un único punto de alimentación, ya sea central o descentralizado. Su estructura permite una expansión ilimitada de la iluminación, garantizando máxima flexibilidad de diseño. De fácil instalación, es compatible exclusivamente con las suspensiones electrificadas 220V de nuestro catálogo, asegurando una integración eficiente y segura en diversos contextos aplicativos.

Bases de plafond pour système de suspensions modulable :
Le système ZETA est une solution modulaire avancée permettant des configurations personnalisées avec un effet montée et descente, à partir d'un unique point d'alimentation, qu'il soit central ou décentré. Sa structure offre une expansion illimitée de l'éclairage, garantissant une flexibilité maximale en conception. Facile à installer, il est exclusivement compatible avec les suspensions électrifiées 220V de notre catalogue, assurant une intégration efficace et sécurisée dans divers contextes d'application.

IT Offriamo diverse soluzioni di dimmerazione per i nostri prodotti: TRIAC, PUSH, DALI e 0/10V, per soddisfare ogni esigenza di controllo dell'illuminazione. È fondamentale verificare il codice prodotto e i bollini identificativi del sistema di dimmerazione compatibile con quel codice specifico. Ogni tipologia di dimmerazione è contrassegnata da un bollino dedicato, che garantisce un'installazione corretta e un funzionamento ottimale. Prima dell'acquisto o dell'installazione, consigliamo di controllare attentamente questi dettagli per assicurarsi della compatibilità con il sistema esistente e ottenere il massimo delle prestazioni dal prodotto.

EN We offer various dimming solutions for our products: TRIAC, PUSH, DALI, and 0/10V, to meet every lighting control requirement. It is essential to check the product code and the identification labels of the dimming system compatible with that specific code. Each type of dimming is marked with a dedicated label, ensuring proper installation and optimal performance. Before purchasing or installing, we recommend carefully verifying these details to ensure compatibility with the existing system and achieve the best performance from the product.

DE Wir bieten verschiedene Dimmerlösungen für unsere Produkte an: TRIAC, PUSH, DALI und 0/10V, um jede Anforderung an die Lichtsteuerung zu erfüllen. Es ist entscheidend, den Produktcode und die Identifikationsaufkleber des für diesen spezifischen Code kompatiblen Dimmersystems zu überprüfen. Jede Dimmerart ist mit einem eigenen Aufkleber gekennzeichnet, der eine korrekte Installation und optimale Funktionalität gewährleistet. Vor dem Kauf oder der Installation empfehlen wir, diese Details sorgfältig zu prüfen, um die Kompatibilität mit dem bestehenden System sicherzustellen und die bestmögliche Leistung des Produkts zu erzielen.

ES Ofrecemos diversas soluciones de atenuación para nuestros productos: TRIAC, PUSH, DALI y 0/10V, para satisfacer cualquier necesidad de control de iluminación. Es fundamental verificar el código de producto y las etiquetas identificativas del sistema de atenuación compatible con dicho código específico. Cada tipo de atenuación está marcado con una etiqueta dedicada, que garantiza una instalación correcta y un funcionamiento óptimo. Antes de la compra o instalación, recomendamos revisar cuidadosamente estos detalles para asegurarse de la compatibilidad con el sistema existente y obtener el máximo rendimiento del producto.

FR Nous offrons différentes solutions de variation pour nos produits : TRIAC, PUSH, DALI et 0/10V, afin de répondre à chaque besoin de contrôle de l'éclairage. Il est essentiel de vérifier le code produit et les étiquettes d'identification du système de variation compatible avec ce code spécifique. Chaque type de variation est marqué par une étiquette dédiée, garantissant une installation correcte et un fonctionnement optimal. Avant l'achat ou l'installation, nous recommandons de vérifier attentivement ces détails afin de s'assurer de la compatibilité avec le système existant et d'obtenir les meilleures performances du produit.

SIKREA DYNAMIC DIMMER

SDD

IT Tecnologia Avanzata per il Controllo della Luce :

Il sistema SIKREA Dynamic Dimmer, introdotto nel catalogo Sikrea Vol.10, rappresenta un'innovazione esclusiva firmata Sikrea.
Questa tecnologia avanzata consente la regolazione della luce per la maggior parte degli articoli LED presenti nel nostro catalogo, sia in termini di intensità luminosa (quantità di luce emessa dalla lampada) che di temperatura di colore Kelvin (luce calda o fredda).
Questo è reso possibile grazie all'integrazione di **Strip LED** o **COB LED CCT**, installati direttamente nei prodotti. La regolazione della luce avviene **prima dell'installazione**, secondo le preferenze del consumatore finale. Una volta installata la lampada, le impostazioni non possono essere modificate senza un successivo smontaggio e rimontaggio. Il sistema permette di gestire separatamente la luce calda a 3000K e la luce fredda a 4000K, creando, attraverso la loro combinazione, tonalità variabili **da 2700K fino a 5000K** e intensità luminose personalizzabili. L'unità di regolazione è integrata all'interno della base della lampada, garantendo un'installazione pulita ed efficace.

EN Advanced Technology for Light Control

The SIKREA Dynamic Dimmer system, introduced in the Sikrea Vol.10 catalog, represents an exclusive innovation by Sikrea.
This advanced technology allows light adjustment for most LED products in our catalog, both in terms of luminous intensity (amount of light emitted by the lamp) and Kelvin color temperature (warm or cool light).
This is made possible through the integration of **LED Strips** or **COB LED CCT,** installed directly into the products. Light adjustment occurs **before installation**, based on the final consumer's preferences. Once the lamp is installed, the settings cannot be modified without disassembling and reassembling the fixture. The system enables independent control of warm light at 3000K and cool light at 4000K, which, when combined, create variable shades ranging **from 2700K to 5000K** with customizable luminous intensities. The control unit is integrated within the lamp's base, ensuring a clean and efficient installation.

DE Fortschrittliche Technologie zur Lichtsteuerung:

Das SIKREA Dynamic Dimmer-System, eingeführt im Katalog Sikrea Vol.10, stellt eine exklusive Innovation aus dem Hause Sikrea dar.
Diese fortschrittliche Technologie ermöglicht die Lichtregulierung für die meisten LED-Artikel in unserem Katalog – sowohl hinsichtlich der Lichtintensität (Menge des von der Lampe emittierten Lichts) als auch der Farbtemperatur in Kelvin (warmes oder kaltes Licht).
Dies wird durch die Integration von **LED-Strips** oder **COB LED CCT** direkt in die Produkte ermöglicht. Die Lichtsteuerung erfolgt vor der Installation nach den individuellen Vorlieben des Endverbrauchers. **Nach der Installation** kann die Einstellung nicht mehr geändert werden, es sei denn, die Lampe wird erneut demontiert und montiert. Das System ermöglicht die separate Steuerung von warmem Licht (3000K) und kaltem Licht (4000K), wodurch sich durch deren Mischung variable Farbtemperaturen **von 2700K bis 5000K** sowie individuell anpassbare Lichtintensitäten erzeugen lassen. Die Steuerungseinheit ist in die Basis der Lampe integriert und sorgt für eine saubere und effiziente Installation.

ES Tecnología Avanzada para el Control de la Luz

El sistema SIKREA Dynamic Dimmer, introducido en el catálogo Sikrea Vol.10, representa una innovación exclusiva de Sikrea.
Esta tecnología avanzada permite la regulación de la luz en la mayoría de los artículos LED de nuestro catálogo, tanto en términos de intensidad luminosa (cantidad de luz emitida por la lámpara) como de temperatura de color Kelvin (luz cálida o fría).
Esto es posible gracias a la integración de **Strip LED** o **COB LED CCT**, instalados directamente en los productos. La regulación de la luz se realiza **antes de la instalación**, según las preferencias del consumidor final. Una vez instalada la lámpara, los ajustes no pueden modificarse sin desmontarla y volver a montarla. El sistema permite gestionar de forma independiente la luz cálida (3000K) y la luz fría (4000K), generando, a través de su combinación, tonalidades variables **de 2700K a 5000K**, con intensidades personalizables. La unidad de regulación está integrada en la base de la lámpara, asegurando una instalación limpia y eficiente.

FR Technologie Avancée pour le Contrôle de la Lumière :

Le système SIKREA Dynamic Dimmer, introduit dans le catalogue Sikrea Vol.10, représente une innovation exclusive signée Sikrea.
Cette technologie avancée permet le réglage de la lumière pour la majorité des articles LED de notre catalogue, aussi bien en termes d'intensité lumineuse (quantité de lumière émise par la lampe) que de température de couleur en Kelvin (lumière chaude ou froide).
Cela est rendu possible grâce à l'intégration de **Strip LED** ou **COB LED CCT**, directement installés dans les produits. Le réglage de la lumière s'effectue **avant l'installation**, selon les préférences du consommateur final. Une fois la lampe installée, les paramètres ne peuvent être modifiés sans un démontage et un remontage ultérieur. Le système permet de gérer séparément la lumière chaude à 3000K et la lumière froide à 4000K, générant, par leur combinaison, des tonalités variables **de 2700K à 5000K** avec une intensité lumineuse personnalisable. L'unité de réglage est intégrée dans la base de la lampe, assurant une installation propre et efficace.

SIKREA DYNAMIC DIMMER+

+

Art. "---/---WIFI"

IT Controllo Smart della Luce :

Il sistema SIKREA Dynamic Dimmer **PLUS+**, già introdotto nel catalogo Sikrea Vol.10, rappresenta un'innovazione avanzata che consente la regolazione dell'illuminazione tramite **Wi-Fi**. Grazie a una **Smart App integrata**, installabile su smartphone, è possibile controllare in tempo reale intensità luminosa e gradazione Kelvin, oltre a creare scenari preconfigurati e programmati in base alle proprie esigenze, garantendo un controllo totale. Una delle caratteristiche distintive è la programmabilità, che consente di impostare orari specifici per accensione e spegnimento automatico, migliorando l'efficienza energetica dell'ambiente.
Inoltre, il dimmer Wi-Fi è compatibile con i più diffusi assistenti vocali, come **Google Assistant** e **Alexa**, permettendo di regolare la luce tramite comandi vocali senza dover toccare lo smartphone. Questo sistema rivoluziona la gestione dell'illuminazione, combinando tecnologia, comodità e risparmio energetico. Nessuna modifica all'impianto elettrico esistente.

EN Smart Light Control :

The SIKREA Dynamic Dimmer **PLUS+** system, already introduced in the Sikrea Vol.10 catalog, represents an advanced innovation that enables lighting control via **Wi-Fi**. Thanks to an **integrated Smart App**, installable on a smartphone, users can adjust brightness intensity and Kelvin temperature in real-time, as well as create pre-configured and scheduled lighting scenarios tailored to their needs, ensuring total control.
One of its key features is programmability, allowing users to set specific on/off schedules, enhancing energy efficiency in any environment.
Additionally, the Wi-Fi dimmer is compatible with the most popular voice assistants, such as **Google Assistant** and **Alexa**, enabling light control through voice commands without needing to touch a smartphone. This system revolutionizes lighting management, combining technology, convenience, and energy savings for an optimized lighting experience. No modifications to the existing electrical system.

DE Intelligente Lichtsteuerung :

Das SIKREA Dynamic Dimmer **PLUS+** System, bereits im Sikrea Vol.10 Katalog vorgestellt, ist eine fortschrittliche Innovation, die die Lichtsteuerung über **Wi-Fi** ermöglicht. Dank einer integrierten **Smart App**, die auf dem Smartphone installiert werden kann, lassen sich in Echtzeit Lichtintensität und Farbtemperatur (Kelvin-Wert) steuern sowie vorkonfigurierte und programmierte Szenarien erstellen, die individuell angepasst werden können – für eine vollständige Kontrolle. Ein herausragendes Merkmal ist die Programmierbarkeit, mit der sich spezifische Zeiten für das automatische Ein- und Ausschalten festlegen lassen, wodurch die Energieeffizienz des Raumes verbessert wird.
Zudem ist der Wi-Fi Dimmer mit den gängigsten Sprachassistenten, wie **Google Assistant** und **Alexa**, kompatibel. Dadurch kann die Beleuchtung bequem per Sprachbefehl gesteuert werden, ohne das Smartphone zu berühren. Dieses System revolutioniert das Lichtmanagement durch eine perfekte Kombination aus Technologie, Komfort und Energieeinsparung. Keine Änderung an der bestehenden Elektroinstallation.

ES Control Inteligente de la Luz :

El sistema SIKREA Dynamic Dimmer **PLUS+**, ya introducido en el catálogo Sikrea Vol.10, representa una innovación avanzada que permite la regulación de la iluminación a través de **Wi-Fi.** Gracias a una **Smart App** integrada, instalable en un smartphone, es posible controlar en tiempo real la intensidad luminosa y la gradación Kelvin, además de crear escenarios preconfigurados y programados según las necesidades del usuario, garantizando un control total. Una de sus características distintivas es la programabilidad, que permite establecer horarios específicos para el encendido y apagado automático, mejorando la eficiencia energética del ambiente.
Además, el dimmer Wi-Fi es compatible con los asistentes de voz más populares, como **Google Assistant** y **Alexa**, permitiendo ajustar la iluminación mediante comandos de voz sin necesidad de tocar el teléfono. Este sistema revoluciona la gestión de la iluminación, combinando tecnología, comodidad y ahorro energético. Ninguna modificación en la instalación eléctrica existente.

FR Contrôle Intelligent de la Lumière :

Le système SIKREA Dynamic Dimmer **PLUS+**, déjà introduit dans le catalogue Sikrea Vol.10, représente une innovation avancée permettant la régulation de l'éclairage via **Wi-Fi.** Grâce à une **Smart App** intégrée, installable sur smartphone, il est possible de contrôler en temps réel l'intensité lumineuse et la température de couleur en Kelvin, ainsi que de créer des scénarios préconfigurés et programmés en fonction des besoins,
garantissant un contrôle total. L'une de ses caractéristiques majeures est la programmabilité, qui permet de définir des horaires spécifiques pour l'allumage et l'extinction automatique, améliorant ainsi l'efficacité énergétique de l'environnement.
De plus, le dimmer Wi-Fi est compatible avec les principaux assistants vocaux, tels que **Google Assistant** et **Alexa**, offrant la possibilité d'ajuster la lumière par commandes vocales, sans toucher au smartphone. Ce système révolutionne la gestion de l'éclairage en alliant technologie, confort et économie d'énergie. Aucune modification du système électrique existant.

Google Assistant

alexa

DIMMER TRIAC o 0/10

Art. “---/---DIM”

IT Articoli “DIM”e loro dimmerabilità:
I prodotti contrassegnati con il codice “DIM” sono dimmerabili e permettono di regolare l’intensità luminosa in modo semplice e preciso. Questo è possibile grazie all’inclusione di un alimentatore TRIAC integrato, che consente di controllare la luminosità tramite un dimmer compatibile. I nostri alimentatori TRIAC sono inoltre compatibili con sistemi 0-10V.

Acquististando un prodotto “DIM” riceverete comunque il nostro modulo SDD in modo da poter regolare la tonalità kelvin della luce al momento dell’installazione.

EN “DIM” Products and Their Dimmability:
Products marked with the “DIM” code are dimmable and allow you to adjust luminous intensity easily and precisely. This is made possible by the inclusion of an integrated TRIAC power supply, which enables brightness control via a compatible dimmer. Our TRIAC power supplies are also compatible with 0-10V systems.

When purchasing a “DIM” product, you will also receive our SDD module, allowing you to adjust the Kelvin tone of the light during installation.

DE Artikel “DIM” und ihre Dimmbarkeit:
Die mit dem Code “DIM” gekennzeichneten Produkte sind dimmbar und erlauben eine einfache und präzise Einstellung der Lichtintensität. Dies ist dank eines integrierten TRIAC-Netzteils möglich, das die Steuerung der Helligkeit mittels eines kompatiblen Dimmers ermöglicht. Unsere TRIAC-Netzteile sind zudem kompatibel mit 0-10V-Systemen.

Beim Kauf eines “DIM”-Produkts erhalten Sie außerdem unser SDD-Modul, mit dem Sie den Kelvin-Farbton des Lichts während der Installation einstellen können.

ES Artículos “DIM” y su capacidad de atenuación:
Los productos marcados con el código “DIM” son atenuables y permiten ajustar la intensidad luminosa de forma sencilla y precisa. Esto es posible gracias a la inclusión de una fuente de alimentación TRIAC integrada, que permite controlar la luminosidad mediante un regulador compatible. Nuestras fuentes TRIAC son, además, compatibles con sistemas 0-10V.

Al comprar un producto “DIM”, recibirá igualmente nuestro módulo SDD para poder ajustar la temperatura de color en kelvin de la luz durante la instalación.

FR Articles “DIM” et leur gradation:
Les produits portant le code “DIM” sont dimmables et permettent de régler l’intensité lumineuse de manière simple et précise. Cela est rendu possible grâce à l’inclusion d’un alimentateur TRIAC intégré, qui permet de contrôler la luminosité via un variateur compatible. Nos alimentateurs TRIAC sont également compatibles avec les systèmes 0-10V.

En achetant un produit “DIM”, vous recevrez également notre module SDD afin de pouvoir régler la température de couleur de la lumière lors de l’installation.

CONVERSIONE DALI o PUSH

DALI or PUSH Conversion

IT Compatibilità dei prodotti dimmerabili TRIAC con sistemi DALI e PUSH:
Se il vostro impianto elettrico presenta modulo di dimmerazione DALI o PUSH, i nostri apparecchi dimmerabili TRIAC si integrano facilmente tramite un convertitore dedicato.
DALI: Il convertitore riceve il segnale digitale e lo converte in un’uscita compatibile con i driver TRIAC, permettendo il controllo dell’intensità luminosa.
PUSH: Il convertitore consente il controllo di accensione, spegnimento e dimming con un pulsante.
Si consiglia di far verificare l’eventuale presenza di un convertitore già installato nell’impianto da un professionista.

Attenzione: limite massimo di carico AC110-230V, 400W. Dispositivo non installabile all’interno della base del prodotto stesso.

EN Compatibility of TRIAC Dimmable Products with DALI and PUSH Systems:
If your electrical system includes a DALI or PUSH dimming module, our TRIAC dimmable devices can be easily integrated using a dedicated converter.
DALI: The converter receives the digital signal and converts it into an output compatible with TRIAC drivers, allowing precise control of light intensity.
PUSH: The converter enables on/off switching and dimming control via a simple push button.
We recommend having a professional check whether a converter is already installed in your system.

Warning: Maximum load limit AC110-230V, 400W. Device not installable inside the base of the product itself.

DE Kompatibilität der dimmbaren TRIAC-Produkte mit DALI- und PUSH-Systemen:
Wenn Ihre Elektroinstallation über ein DALI- oder PUSH-Dimm-Modul verfügt, lassen sich unsere dimmbaren TRIAC-Geräte einfach über einen speziellen Konverter integrieren.
DALI: Der Konverter empfängt das digitale Signal und wandelt es in einen mit TRIAC-Treibern kompatiblen Ausgang um, wodurch die Steuerung der Lichtintensität ermöglicht wird.
PUSH: Der Konverter ermöglicht die Steuerung von Ein-/Ausschalten und Dimmen über eine Taste.
Es wird empfohlen, die mögliche Anwesenheit eines bereits installierten Konverters in der Anlage von einem Fachmann überprüfen zu lassen.

Achtung: Maximale Lastgrenze AC110-230V, 400W. Das Gerät kann nicht innerhalb der Basis des Produkts selbst installiert werden.

ES Compatibilidad de los productos regulables TRIAC con sistemas DALI y PUSH:
Si su instalación eléctrica cuenta con un módulo de regulación DALI o PUSH, nuestros dispositivos regulables TRIAC se integran fácilmente mediante un convertidor dedicado.
DALI: El convertidor recibe la señal digital y la convierte en una salida compatible con los controladores TRIAC, permitiendo el control de la intensidad luminosa.
PUSH: El convertidor permite el control de encendido, apagado y regulación de la luz mediante un botón.
Se recomienda que un profesional verifique la posible presencia de un convertidor ya instalado en el sistema.

Atención: Límite máximo de carga AC110-230V, 400W. Dispositivo no instalable dentro de la base del propio producto.

FR Compatibilité des produits dimmables TRIAC avec les systèmes DALI et PUSH :
Si votre installation électrique est équipée d’un module de variation DALI ou PUSH, nos appareils dimmables TRIAC s’intègrent facilement grâce à un convertisseur dédié.
DALI : Le convertisseur reçoit le signal numérique et le transforme en une sortie compatible avec les drivers TRIAC, permettant ainsi le contrôle de l’intensité lumineuse.
PUSH : Le convertisseur permet le contrôle de l’allumage, de l’extinction et de la variation de l’éclairage via un bouton poussoir.
Il est recommandé de faire vérifier par un professionnel la présence éventuelle d’un convertisseur déjà installé dans votre système.

Attention : Charge maximale AC 110-230V, 400W. Dispositif non installable à l’intérieur de la base du produit lui-même.

Dispositivo da ordinare separatamente:
Device to be ordered separately:

Cod. 1256 - Convertitore DALI/PUSH
