

Random Stick
design by Chia-Ying Lee

Model Random Stick XL

Random Stick expands the collection of the same name designed by Chia-Ying Lee with a stand-alone pendant lamp that is simple yet highly decorative. Random's delicate spheres of light are placed on a hexagonal bar, like fragile soap bubbles that brush against the surface before taking flight again. Available in several lengths – 100 and 150 cm, and now also 120 and 180 cm to respond even more precisely to project requirements – it is ideal for illuminating elongated surfaces of various sizes, such as dining tables or bar and restaurant counters. The spheres, available in eight finishes – including the new Pale Gold, Mandarin Orange, Golden Sage and Deep Azure Steel – can be freely combined with bars in Polished Gold and Black Chrome to create original colour combinations and striking lighting effects. The LED modules integrated into the lower part complement the light diffused by the spheres, ensuring uniform downward illumination.
