## RL7060800

CEILING ROSE

Fig.1

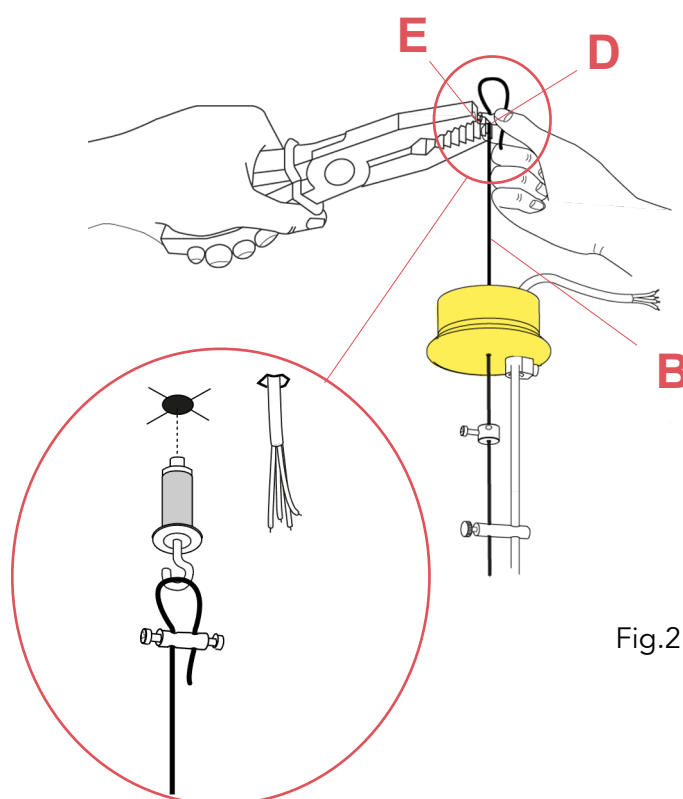

Fig.2

Insert the power supply cable (A) and the steel wire (C) through the ceiling rose (C).  
Adjust and then cut the steel wire (B) to the length desired.  
Insert the steel wire (B) through the clamp (D) so as to form a loop. Tighten screw (E).

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off.  
For the installation of the spare-part, it is necessary to consult a qualified electrician.

CEILING ROSE

Fig.3

Connect the power supply cord to the terminal block (F).  
The apparatus has been designed for double wall switch:  
Neutral wire = BLUE.

1st phase wire for 1st wall switch = BROWN.

2nd phase 2nd wall switch = BLACK.

If you choose to utilize only on single wall switch it is necessary to bridge the brown wire with the black wire.

Push the ceiling rose (C) into position and lock it through the cable clamp (G).

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off.  
For the installation of the spare-part, it is necessary to consult a qualified electrician.

## RL7050100

E14 LAMP HOLDER

Fig.7

Fig.8

Fig.9

Assemble now the new spare-part:

Insert through the electrical cable the cable clamp (G) and the support (D). Connect the wires (F) on the fitting (E) respecting the polarities.(Fig.7)

Insert the fitting (E) inside the support (D).(Fig.8)

Lift-up the brass central contact (B) on the fitting (E). (Fig.9)

Fasten the sleeve (C) on the support (D).(Fig.5 page 15)

Lock the cable by fastening the screw (A) of the cable clamp.(Fig.2 page 13)

Once replaced the lamp holder it is necessary to insert the lamp holder (M) in the ring (L) and fasten them by locking the screw (N). (Fig.1 page13)

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off. For the installation of the spare-part, it is necessary to consult a qualified electrician.
