BLACK ROSE ASSEMBLY

Fig.1

Fasten the wall fitting to the ceiling with screws and screw anchors, making sure the power cables pass through the central hole. Utilize the 3 protection covers (F) to cover the screws. **NOTE:** Choose screw anchors that are suitable for the type of mounting surface.

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off. For the installation of the spare-part, it is necessary to consult a qualified electrician.

BLACK ROSE ASSEMBLY

Fig.2

Connect the main power supply wires to the terminal block (C). Put the protection sheath (G) that has been supplied with the device through the power cable (E); thread the power cable (E) through the specific wall fitting opening (B), adjust (if necessary) the device height, lock the cable through the cable tighter present near the opening (B) and then cut off the excess cable.

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off. For the installation of the spare-part, it is necessary to consult a qualified electrician.

BLACK ROSE ASSEMBLY

Fig.3

Position the protection sheath (G) at the height of the screw (D), then lock the power cable by tightening the screw (D). Connect the electrical cable wires to the terminal block (C). Assemble the ceiling rose cover (A) onto the wall mounting (B) ensuring that the small moulded column (H) corresponds with the opening (I) of the ceiling rose cover.

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off. For the installation of the spare-part, it is necessary to consult a qualified electrician.

G9 LAMP HOLDER WITH INNER RING AND 2,5MT OF ELECTRICAL CABLE

Fig.3

Fig.4

Assemble now the new spare-part:

Unfasten the inner ring (B) present on the new electrical assembly (D).

Collocate the electrical assembly (D) on top of the lamp body (C) and then lock the electrical assembly (D) by tightening the inner ring (B).
Install the lamp bulb (H)

Assemble the reflector/diffuser (A). Hook it on the lamp body (C) by rotating it clockwise.

Install the lamp-bulb (H). (Fig.2 page 9)

WARNING! When installing and whenever acting on the appliance, ensure that the power supply has been switched off.
For the installation of the spare-part, it is necessary to consult a qualified electrician.
